

BOSTON THREATENED WITH WATER FAMINE

BOSTON, Jan. 28.—Warning that a water famine threatens Boston and cities and towns in the metropolitan district within the next five years, unless immediate steps are taken to increase supply resources, was given by Chief Engineer N. H. Goodenough of the state department of public health yesterday. He urged the construction of a reservoir to cost at least \$1,000,000 and to exceed the Wachusett basin in capacity in a report before the legislative committee on water supply.

The population of the metropolitan district has doubled in the last 25 years, said Mr. Goodenough. "This growth shows no sign of diminishing. The increase in the use of water runs at about five million gallons a day and in two or three years the consumption will equal our total water resources."

REPORT ON WORK OF THE K. OF C. GUILD

The work of the K. of C. guild for the year 1920 was summarized in a report read by William H. Gallagher at the meeting of the Lowell council, K. of C. last night. The report was submitted by the K. of C. chairman and treasurer, Rev. James F. Lynch and indicated that the work of the guild has spread out to such an extent that the expenditures have increased considerably. The work of the guild is to care for children who are neglected or who are brought before the local court as delinquents and the report told of the work in that line during the past year.

Eighty-one court cases in which the guild turned its attention were placed on probation and out of that number only 11 delinquents have broken the terms of their parole. The report also mentioned the number of Christmas baskets given to needy families at Christmas time and work done for the benefit of the children at St. Peter's orphanage.

Appreciation Expressed

Hon. Thomas J. Doherty, justice of the local court, and the two associate justices, Hon. John A. Pickman and Hon. Frederic A. Fisher, were given an acknowledgment of thanks in the report as well as Miss Mary Gallagher, agent of the guild. Formal acknowledgment of the services of law-

yers and physicians was also made and appreciation expressed.

Financial Status

The financial report shows that the cash on hand on Jan. 1, 1920, was \$28.32 and the receipts for the past year have included over \$200 from donations, \$200 special donation from the council, board, etc. \$446 and \$100 for special cases, making a total of \$1974.32. The expenditures for the past year have been \$32.51 for shoes, \$28.00 for food and supplies, \$34 for St. Peter's orphanage, \$107.50 for St. John's hospital, \$35 for the home for Destitute Children, \$612 for board in families, other expenses, \$504. The cash on hand was \$203.10, making a grand total of \$1920.54.

Work of the Guild

Investigation of cases during 1920 by the guild totaled 256; visits to homes totaled 352; visits to asylums, hospitals and so on, totaling in the hundreds. Ninety families were furnished with clothing, 45 families with food and 24 with shoes.

Minister Show Tonight

Lowell council, K. of C. will hold its annual ministerial show and entertainment at this evening in Associate hall. Entertainment will follow the entertainment until a late hour. The proceeds from the affair will be turned over to the guild fund to aid in carrying on the work of the present year.

TO DECIDE IF MINISTER VIOLATED CANON

LOS ANGELES, Cal., Jan. 28.—The question of whether a canon of the Protestant Episcopal church had been violated in the marriage of Alfred I. Dupont, of Wilmington, Del., and Miss Jessie D. Ball, of Los Angeles, last Saturday, may not be decided for several weeks, Bishop Johnson of the diocese of Los Angeles said today.

He said he had taken no action in the matter, to which attention was called by the convention of the diocese in a resolution suggesting him of its support in any steps he might see fit to take.

The Rev. Baker P. Lee, who performed the ceremony, said he was prepared to defend his action before an ecclesiastical tribunal. He declared he had made inquiries and had a sworn statement concerning the circumstances of Mr. Dupont's divorce, in the light of which he said he felt justified in performing the marriage.

A fish that can effect poison like a snake has been discovered in the South seas.

VOICE RESTORED TO LOWELL MAN In Fifteen Minutes and Talking Naturally in Four Hours

"I wish to tell you about the wonderful results which I obtained from the use of Sister Mary's Compound. I contracted a cold which resulted in my throat and affected the vocal cords so that it was impossible for me to speak above a light whisper. Within 15 minutes after taking the first dose of Sister Mary's Compound my voice began to strengthen and in less than four hours I could talk naturally and with perfect ease. This was the result of only four doses of your very wonderful remedy and I can earnestly and conscientiously recommend Sister Mary's Compound to those afflicted with throat troubles." John W. Delaney, 85 Mt. Vernon st., Lowell.

Sister Mary's Compound will restore voice and relieve hoarseness, congestion and hard, dry cough in 24 hours or less, if wine glass dose is taken at least twice before retiring.

No cod-liver oil, no alcohol or narcotics. Children do not have to be urged nor coaxed to take Sister Mary's Compound.

For coughs, colds, stomach, throat, lung and bowels, as a body builder and blood purifier Sister Mary's Compound has no equal. All Drug Stores.—Adv.

ARDENT SINN FEINER MYSTERIOUSLY KILLED

BELFAST, Jan. 28.—Michael Garvey, an ardent Sinn Feiner, was mysteriously killed in bed yesterday.

The crime is believed to have been in revenge for the shooting of three policemen, who were to have been shot at a military inquiry, in the bedroom of a hotel near police headquarters Wednesday night.

PELHAM WOMEN FORM JOLLY CLUB

The Women's Jolly club of Pelham, N. H., is the name of the new organization recently formed by the French-speaking women of the town. The aim of the club is to encourage closer social relations between its members and incidentally to lend a helping hand to the needy ones of the town. Weekly meetings will be held for the purpose of sewing for those in need, while monthly socials will be conducted for the purpose of raising funds.

The first social gathering of the club took place last evening at the home of Mr. and Mrs. Benjamin Hamay, former residents of Exeter street, this city, who since last September have been making their home in the New Hampshire town. The affair was attended by nearly 100 people and all spent a most enjoyable evening.

In the early part of the evening a brief informal reception was held and later whist was played, the winners being Mr. and Mrs. Joseph Garvey of Pelham. At the close of the whist a varied entertainment program was given, those participating being Mrs. Brunelle, Mrs. Henry DeCelle, Mrs. J. Carney, E. S. Desmarais, Alfred Ducharme and others. A buffet luncheon was served and general dancing was enjoyed.

The members of the club are as follows: Mrs. Elyse Landry, Mrs. Nelson Gaudin, Mrs. Henri Bergeron, Mrs. Joseph Garvey, Mrs. Charles Ducharme, Mrs. Frank Holsvort, Mrs. Joseph Paquette, Mrs. Arthur Morneau, Mrs. Eugene Ducharme, Mrs. Henri Foisy and Mrs. Alfred Leblanc.

CENTREVILLE CHURCH

A supper and entertainment was held at the Centerville M. E. church last evening and the affair was largely attended. The entertainment consisted of a playlet entitled "A Bachelor's Revival" and was presented under the direction of Mrs. Jessie Gaudin. Those taking part being Mrs. Daisy Sieveta, Donald Chisholm, Mrs. Minnie Fox, Frank Callahan, Charles Gaudin, J. E. Leith, Lillian McLaughlin, Rose Marchand, Marion Taylor, Marie Finelli, Emma Chisholm, Mrs. Denis Callahan, Albertine Curtis, Mrs. Elsie Callahan, Emma Curtis, Dorothy Leith, Helen and Ruth Hartwell. The kitchen committee consisted of Mrs. Griffin, Mrs. A. I. Bizer, Mrs. Hope, Mrs. A. Rye, Mrs. H. Chisholm and Mrs. E. A. Swapp. Dining room committee, Mrs. A. E. Grogan, Mrs. Denis Callahan, Mrs. D. A. Munson, Mrs. Nelson and Mrs. Hatfield Whittier. The waitresses were the Misses Emma Curtis, Emma Chisholm, Lillian McLaughlin, Albertine Curtis, Marjorie Filfield, Rose Machaeco, Jennie Poole, Elsie McBurney, Minnie Fox and Mrs. Daisy Stevens.

MOTHER NOW TELLS OF DAUGHTER'S RECOVERY

Miss St. Amand, Aged 15, of New Bedford, Gained Seventeen Pounds by Taking Tanlac—Was On Verge Of Complete Breakdown

"I certainly do feel thankful that my 15-year-old daughter is enjoying good health again," declared Mrs. Marie Rose St. Amand, 301 Sawyer st., New Bedford, recently.

"Just think of it, Ora has taken only three bottles of Tanlac, but already she has gained 17 pounds in weight. She had been in poor health nearly two years and had lost 20 pounds in weight and in spite of everything we could do she was growing worse. Her appetite was so poor that she ate little of anything and looked weak and thin and couldn't get any rest either day or night. She was on the verge of a complete breakdown and at times it just made me cry to think we could not do a thing for her.

"A few weeks ago one of our friends advised us to try Tanlac and I will never forget the day Ora began taking it. It was just the thing she needed and I think it is wonderful how it has restored her to health in so short a time. She is as strong and well as ever, sleeps perfectly sound and to look at her it hardly seems that she is the same girl. I have nothing but praise for Tanlac and I recommend it with all my heart.

Tanlac is sold in Lowell by Green's Drug Store, under the personal direction of a special Tanlac representative, by Wright Drug Co., Billerica, Mass., and by the leading druggist in every town.—Adv.

AMUSEMENT NOTES

By Theatres' Own Press Agents.

THE STRAND

Clara Kimball Young, who has not appeared on the local screen for some time, is making a pronounced hit in her latest film triumph, "For the Son of Rafael," which is being presented for the last three days at The Strand. All of the exceptional talent of this star is reflected in her work in this picture. Then there is Lew Kelly, in "Occasionally Yours," a delightful comedy drama that has all of the amusing elements that will please. It has pretty girls, good humor and a good story.

"MADAME X" NEXT WEEK

"Madame X," the great emotional play of the present generation, will be shown at The Strand for the first three days of next week. Remember that this extraordinary picture will be shown on the screen for three days only and at the usual Strand prices. Don't miss seeing Pauline Frederick in the leading role.

OPERA HOUSE

If you haven't seen "The Lowell Players" in their big musical comedy success, "The Only Girl," this week at the Opera House, then don't miss the remaining opportunities of enjoying one of the most enjoyable efforts by any local stock cast. The local chorus, including some of Lowell's best vocal talent, and the musical numbers by the regular members of the cast, are combined in making the offering generally praiseworthy. Don't miss it. Order your tickets today. Next week Jane Cowie's great play, "Paybreak" will be given its first local production.

MERRIMACK SQUARE THEATRE

A smashing, crashing comedy drama is "So Long Letty," the big musical special which tops the bill at this theatre for the last three days of the current week. At Christie, the famous comedy-drama producer, is responsible for the screen adaptation of "So Long Letty." The result of his efforts placed the film version above the Oliver McCoo stage production which made such a wonderful hit from coast to coast. "So Long Letty" has a story that holds up to ridicule the chronic domestic grudge. Just how two disgruntled husbands are taught a lesson by their well meaning wives is the punch of the picture. The second feature on the program is "312," featuring

RECOGNITION IN DRACUT

At the request of Charles S. Little, who was defeated for the nomination of road commissioner by Robert C. Little at the recent republican caucus of the town of Dracut, a recount of the vote will take place within a few days. A petition for a recount has been filed with the clerk of the town, who turned it over to Fred A. Bassett, chairman, and Alfred Fox, secretary of the republican town committee. The vote at the caucus was 127 to 121 in favor of Mr. Little. At the recent democratic caucus the following officers were nominated: Nicholas Gallagher, assessor; Thomas F. Currier, tree warden; and Frank Callahan, road commissioner. There will be no candidates for the other offices. Nelson E. Huntley and J. Chester Fox, both registered republicans, have announced their intention of being independent candidates for treasurer and selectman, respectively. The last registration session prior to the election will be held next Saturday at the town office, Centre village, from 12 m. to 10 p. m.

HOME RULERS DISLIKE JOBS

Sharp Criticism of Eastern Massachusetts at a Meeting in City Hall

Rev. N. W. Matthews Says the Road is Dead and Doesn't Know It

That the home rule committee is a farce; that its members are wasting time holding meetings; that it has no power to accomplish anything; that the public trustees keep the inside workings of the road carefully hidden was freely charged at a meeting of the committee held in city hall yesterday afternoon. Several members expressed the opinion that they were heartily tired of their jobs and were disposed to forego the empty honor of holding them for a longer period. Rev. N. W. Matthews said he thought the Eastern Massachusetts street railway is dead and doesn't know it.

Chairman John E. Sullivan started setting off the fireworks of criticism when he asserted that during the year of its existence the home rule committee had not accomplished a single thing except put the jitneys out of business. He said that neither the company nor the road would ever get anywhere until a five-cent fare unit is established.

Many Had Grievances
 There was not time for an encore for the chairman's remarks. The other members of the committee had too many grievances of their own to air. Mr. Matthews attempted first to put his flashlight focused on the financial affairs of the road. He unearthed the information from District Manager Thomas R. Lee that during 1919 the revenue from cash fares was \$48,959 and from tickets \$53,972, and that it cost more to operate the road last month than it did in December, 1919.

This statement started Secretary George F. Wells of the chamber of commerce on the trail in search of more facts. He wanted to know why, with fewer cars running, fewer men employed, one-man cars in use operating expenses climbed.

"Higher wages," said Mr. Lee. Mr. Wells showed curiously as to

depreciation charges. Mr. Lee said that depreciation is charged up as operation expenses at the rate of about \$10,000 a month.

"Bonehead" Methods
 Describing the way in which he said cars at North Chelmsford fall to make connections with the Ayer cars, Mr. Matthews said that he considered the company's methods a "bonehead" way of doing business.

Mr. Lee said he would "investigate." Mr. Durfee sought information as to why there are fewer cars on the Andover street line, and was informed by Mr. Lee that there was hope that there might be more some time.

Mr. Wells, referring to the remark of the chairman that there should be a five-cent fare unit on the road, said that he had been sharply criticised several months ago for making a similar suggestion.

Mr. Molloy said he believed it was impossible to run the road on a five-cent fare basis.

Suggestions Turned Down
 Mr. Hobson said that he had made suggestions for improvements that he thought would be for the benefit of the road, but that nothing had come from them.

"Why hasn't the committee forced the road to act on its recommendations?" asked Secretary Cuntin. "It has been a 'nutter' time after time."

"We have no authority," said Mr. Durfee. "This is an advisory committee, but they are not allowed to advise. I don't think we are getting anything out of the time we are putting in here."

Mr. Hobson complained of the discourtesy of employees of the road. Mr. Wells said he would like to see the fares fixed so that everybody should pay the same fare and deposit it in a box.

The next meeting of the committee, the second Thursday in February, is to be held in Mr. Lee's office and the plan of the Lowell district will be in effect.

jobs are being done through sub-contractors of Boston on steel and galvanized iron work and all their men coming from Boston are on strike. At the high school, steamfitters and ventilation workers are also out, it is understood, and at present the only men working are those directly under General Contractor Daniel Walker of this city. The men have been out since last Wednesday and from information gathered this morning it is known that the strike is holding back work on the building to a considerable extent.

The method of structure at the high school necessitates simultaneous progress on steel, iron and other work, while at the auditorium at the present time, though a few steel workers are out, other work continues. The workers on both jobs members of the Boston organization now on strike and said to be holding back work in that city, were obliged to leave their work in this city at the same time.

It is understood that the workers on strike were under contract to work until May 1 under certain wages, and that they are now being asked to continue after that date. When a reduction of 10 per cent was announced last week the men considered it a violation and so went on strike.

HERZOG NOT TO QUIT
 BOSTON, Jan. 28.—Charles "Rock" Herzog, second baseman, recently released unconditionally by the Chicago Nationals, does not expect to quit his job, but he says he will not do business until the following meeting of the National League at New York next month.

It is said that Manager Donovan of the Philadelphia Nationals is desirous of signing Herzog. Other major league clubs also are said to have been made him.

STRIKE IN BOSTON IMPEDES WORK HERE
 Progress on the high school building in Kirk street is being impeded by the Boston strike of Bay State Structural Iron Workers against a 10 per cent reduction in wages declared by the contractors. Steel workers of the same concern engaged on the auditorium job are also on strike.

TO WATCH U. S. VISITORS TO JAPAN
 TOKIO, Jan. 26.—The police, according to the Asahi Shinbun today, have decided to exercise greater surveillance over American visitors to Japan who "are busily engaged in investigating industrial and military conditions." The newspaper claims that the police confirm this statement.

Giant Dirigible R-34 Damaged
 LONDON, Jan. 28.—Airship R-34 was damaged while making a landing on the Yorkshire coast, early today and for a time was unmanageable, drifting out to sea. Destroyers were sent out and there was some uneasiness over the plight of the giant dirigible, which in July, 1919, made a voyage to America from England. After a few hours, however, it was announced that the airship was only partially disabled and was returning to her base. None of her crew was injured.

Village Without Police Protection
 NEW BRUNSWICK, Ga., Jan. 28.—The only man in Oak Tree authorized to make arrests was in jail today and the village had no police protection. A negro arrested for recent robberies said his accomplice was the constable, Herman Beringer. A detective from New Brunswick arrested Beringer.

\$6000 Reward for Recovery of Jewelry
 CLEVELAND, Jan. 28.—A reward of \$6000 has been offered for the recovery of jewels valued at \$50,000 belonging to John L. Severance, which disappeared last Saturday night. Announcement of the reward appeared in newspaper advertisements today. A handbag which contained the jewels was found empty in a yard here yesterday, leading to the belief that they had been stolen.

ADVENTURES OF THE TWINS

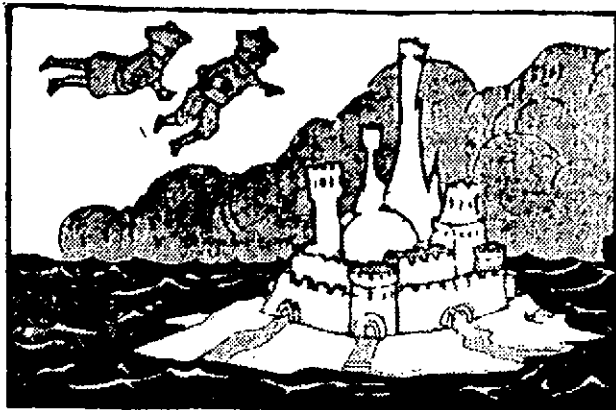

by Olive Roberts Barton

"THE ICEBERG PALACE"

At last the twins were about to escape from the undersea palace of the wicked Jinn. With the aid of their friends, the lobster, the crab and the sea cucumber they had found their box of charms and the magic shoes. Nick was looking at his wonderful

of the ocean (the lobster and crab scurried away just in time) and the Jinn turned to rock, which puffed higher and higher until it reached the top of the waves and made a very safe little island.

The twins lost no time clambering up and before the Jinn could follow,

THE ICEBERG BENEATH HAD TURRETS AND TOWERS AND CHIMNEYS AND WINDOWS EXACTLY LIKE A CASTLE

map which showed him the road to the South pole, when suddenly the lobster cried, "There comes the Jinn for his supper and I haven't it ready. I didn't know it was so late."

Yes, it was getting dark, and the Jinn was sliding down from his ice palace in the north on the northern lights.

"Oh," cried Nancy, "what shall we do now, Nick? He'll take us prisoners again."

But something happened. Sam Swift, the bird messenger, knew where the children were and told the Fairy Queen. What did she do but cause a volcano to appear at that very moment. Up it boiled from the bottom

they had wished themselves far away in their magic shoes.

An iceberg had broken away from its moorings in the Arctic sea and was floating slowly southward. As the twins were whizzing through the air above it, Nancy's sharp little eyes spied something, in fact, two something on the moving mass.

"Nickie, let's wish ourselves down on the iceberg!" she said. "It looks very interesting."

"All right," agreed Nick, who had noticed something himself. He had seen that the iceberg beneath had turrets and towers and chimneys and windows exactly like a castle.

TELLS OF 2 MONTHS STAY IN "FORBIDDEN LAND"

CALCUTTA, Jan. 28.—The first European who has had an audience of the Dalai Lama of Tibet at Lhasa since Manning in 1811 has just returned here after two months' residence in the "forbidden land."

He is J. Fairley, a telegraph engineer in the service of the government of India, who reports that the Tibetan government is apparently anxious for the country to be linked up by telegraph with India, and there are also faint signs, he thinks, of a desire for industrial advance on European lines.

Back to Middle Ages

"A visit to Lhasa," he says, "transports one straight back to the middle ages. There is no sanitation or drainage in Lhasa today and if it were not for its low temperature, owing to the fact that it is built on a plateau 11,000 feet high, its 20,000 inhabitants would quickly die of typhoid fever."

"The audience of the Dalai Lama took place in the Norbulinga palace three miles outside the city. The reception hall was gorgeously decorated in red and gold, with a magnificent silk canopy over the throne on which the Lama was seated in European fashion. His Holiness wore an oriental yellow-brown robe, and his hair was done in the familiar platted fashion of the Lamas. His situation took the form of phelung over my arms extended in front of me a long silk shawl, which courtesy I returned by placing a silk shawl over the arm of His Holiness."

"The Dalai Lama's first question concerned my age, and the second my wife's age, and he showed great interest in my experiences on my journey. His Holiness gave me the same impression of gentle kindness which I derived from all my contact with the Tibetans."

Mr. Fairley also visited the Council of Shampas, as the Tibetan cabinet is called.

Asked if War Was Over

"The Shampas," he says, "inquired anxiously if the war were now over and Europe at peace again. Afterward, they invited me to a 24-course lunch. The only mishap was that my interpreter was so overcome with nervousness that he spilled the tea in the lap of one of the Shampas as he poured it."

Mr. Fairley also visited the Jo Kung, the Buddhist cathedral, where he found a bell left behind by the Capuchin fathers in 1745 when they abandoned their attempt to found a mission in Lhasa.

"In front of the main altar," Mr. Fairley says, "stands 27 butter-lamps of solid gold, 10 inches high. The figure of the Buddha is finely gilded and ornamented with gold and turquoise. In a corner close to the door there is a large butter lamp of solid silver, about two feet in diameter and three feet in height. This lamp is literally plastered to the wall by the high left by millions of pilgrims, who have been in the habit for centuries of touching it in the course of their devotions."

THE SUNNY SIDE OF THE STREET

BY DR. WILLIAM E. BARTON

There is an old fable which comes now and then to the minds of knaves and scoundrels of our household. One day I wanted him to sharpen my scissors, and seeing him on the other side of the street, I hailed him. To my surprise he refused to come over, saying that he must go on, but he would be back in the afternoon.

Later in the day he explained to me his philosophy. The sun, he said, is the source of life. All living things require it, man as much as the dog, cat or tree. Therefore, he made it his rule, except in excessively hot weather, to go up the east side of the street in the morning and down the west side in the afternoon.

I had a hard time getting rid of him, for he wanted to talk. He had some books in his box, and some written pages out of which he was proposing to make a book of his own. He had some curious notions, and some very vague imaginings. But after he was gone I thought that one element in his philosophy I should like to pass on to others.

Every street in life has two sides.

THE STORE OF ABSOLUTE SATISFACTION

and every experience in life is capable of being interpreted in at least two aspects. There are people not a few who habitually reverse the old Dan's philosophy and practice, and who keep absolutely on the shady side. They carry in their heads; they live in the shadows of their forebodings; they seek the haunting and chilling areas of their fears.

To such I pass on the practice of the old seers—grinder from Denmark. He is wiser in his generation than Hamlet, the prince of his own country, who cursed the times that were out of joint, and lamented that he could not set them right. The old man has learned the joy and satisfaction of keeping on the sunny side of the street.

Commercial developments of world wide that grows as a weed in South Africa is the purpose of a company recently formed.

Bald cotton may have to be treated with a chemical compound to render it fireproof.

HUNT FOR ARMY AND NAVY CHAMPS
TEX O'ROURKE
(N.E.A. Staff Special)
NEW YORK, Jan. 28.—Real army and navy champs!

More than 60 yrs. ago an English chemist began to manufacture BEECHAM'S PILLS. Today they have the largest sale of any medicine in the world! Why? Beecham's pills

The National Boxing Association is hunting 'em.
Secretary Tex O'Rourke of the newly organized body plans a series of elimination bouts in army and navy camps all over the country.

Failure of doughboy and middy boxers to stand up against their British cousins was a disappointment to military officials.

In bouts recently held here the Britons proved superior to the Americans. Tex believes that their failure was due to hurried selections and that they weren't Uncle Sam's best.

Following a set of elimination bouts the winners will go to England and try to win back lost laurels.

Tex is also seeking boxing champions of the major industries. He's attracting elimination bouts and a final wind-up tourney for boxers among lumber camps, steel mills, shipbuilding yards and other industries.

These rough fellows show more of whole-hearted fighting than most professionals," says Tex.

The National Boxing association, which now embraces 17 states, will attempt to line up all states where boxing laws exist, according to Tex.

Says Pile Remedy Worth \$100 a Box

"I have had itching piles ever since my earliest recollection. I am 53 years old and have suffered terribly. I have tried many remedies and doctors, but no cure. About eight weeks ago I saw your ad for Peterson's Ointment. The first application stopped all itching, and in three days all soreness. I have only used one box and consider I am cured. You have my grateful, heartfelt thanks, and may everyone that has this trouble see this and give your ointment, that is a trial. Sincerely yours, A. Newth, Columbus, Ohio."

Peterson's Ointment for Piles, Eczema and old sores is only 25 cents a large box at all druggists. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.—Adv.

WHERE HARDING IS SPENDING VACATION

These scenes show where President-elect Harding is spending his pre-inaugural vacation. On the left is the entrance to the Ponce de Leon hotel, at St. Augustine, Fla. The "Harding wing" of the hotel is shown on the right, the arrow ring indicating Harding's suite with balcony overlooking a beautiful garden. Below is the luxurious yacht 'Victoria', owned by Senator Frelinghuysen and named for the senator's eldest daughter. It is 88 feet long and has two 50 h. p. engines and a wireless tower. Harding is expected to cruise until early February and then return to the Ponce de Leon for most of that month.

TO FADE AWAY

LIKE OLD BRASS RAIL

WASHINGTON, Jan. 25.—Put out of business by prohibition, the house alcoholic liquor traffic committee which haven't met for more than a year is preparing to fade away like the old

brass rail. Members are ready to ask for their release, agreeing with Chairman Volstead, of the Judiciary committee, that the Volstead enforcement act has teeth enough to handle any liquor problem that may arise.

By washing coal to keep out impurities a saving of 2.5 per cent over the old method of picking has been effected.

RUNAWAY HORSE KILLS WOMAN OF 72

BOSTON, Jan. 25.—Mrs. Emma Elizabeth Draper Tate, 72 years old, of 121 Centre street, West Roxbury, was killed, three others were slightly injured and more than a score of pedestrians were nearly trampled under the feet of a runaway horse yesterday in front of the Old South church. Mrs. Tate died at the relief station shortly after the accident.

Frightened from an unknown cause a horse attached to a newspaper delivery wagon started from Harvard place directly opposite the church and stopped his mad dash by landing against the door of the church, 100 yards distant.

Washington street was jammed with pedestrian traffic at the time and everyone pushed and shoved in their haste to escape being run over by the horse. All but four were successful and these were struck by both the horse and the light delivery wagon.

Mrs. Tate sustained a punctured lung, fractured ribs; Mrs. Victoria Purvis, 32 years old, of 675 Broadway, Maplewood, scalp wounds and minor abrasions; Mrs. J. N. Carver, 32 years old, of 177 Dorchester avenue, Dorchester, contusions and abrasions of the head, and a lacerated eyelid, and Carl Nordgren, 10 years old, of 29 Ashland street, Dorchester, scalp wounds and general shaking up.

Stopped by colliding with the church door, the terrified horse was immediately caught by several pedestrians and hauled into the alleyway where his mad dash started. The injured were carried inside the church and taken to the Haymarket Square Relief Station for treatment.

Mrs. Tate was the last of the famous Draper family of revolutionary fame and was the daughter of Captain William Draper, commander of the 2d Company of Roxbury Minute Men at Lexington, who was later killed in action in Concord.

MEMORIAL FOR UNIDENTIFIED HERO

Many members of the Lowell post, 57, American Legion, are of the opinion that America should follow the example set by France and England in choosing at random the body of an unidentified American hero and burying it in a special place and erecting a suitable memorial over it, in tribute to the nameless heroes who gave up their lives on the battlefields during the world war.

With a view to creating sentiment favorable to such a proposition a set of resolutions will be read at the next regular meeting of the American Legion post for action by the body to be forwarded to national headquarters of the organization. It is thought that these resolutions drawn up by the American Legion posts throughout the country will gradually lead to the fulfillment of the idea.

In England, the unknown soldier and sailor dead were honored by the interment of a body at Westminster Abbey on Armistice day last November. In

COLDS and A RAW, SORE THROAT

END QUICKLY! WHEN YOU APPLY CAMPHOROLE.
Colds Go Over Night—Sore Throat in 15 Minutes.

There's nothing more powerful than CAMPHOROLE when you need it. It's your sure, quick relief of throat. You can give it to your child and yourself. It's a powerful cough and cold in the throat and chest.

At once it soothes the inflamed and swollen passages of the throat and lungs and is created by the powerful healing rays which reach the very seat of the disease with each breath, loosening up phlegm, stopping the inflamed lining of the throat, chest and bronchial tubes, gently and easily. Sufferers from Colds, Bronchitis, Whooping Cough, Croup and Whooping Cough, Measles, Influenza, etc., find relief in 15 minutes.

Lack of rich red blood makes you

Weak Anaemic Nervous and Run-down

—and keeps you so

WINGARNIS

In almost every case of weakness, impoverished blood, nervousness and run-down vitality there is a real shortage in the body of several mineral elements such as Iron, Calcium, Potassium, Sodium and Phosphorus. All of these are contained in Wingarnis. So by taking Wingarnis when you are weak, anaemic, nervous or run-down, you restore to the body the very mineral elements that help to make the blood rich as well as red. Try Wingarnis for yourself. The results will surprise you.

France the body of an unidentified French soldier was buried beneath the Arc de Triomphe in Paris with very elaborate and impressive military services.

The resolutions to be read at the meeting are as follows: "Since it is inevitable under usual conditions of warfare that many bodies of our soldiers cannot be identified and were buried in nameless graves overseas, even though some of them may have parents or families in this country, and it is known that there were hundreds and hundreds of such cases, and since England and France have buried unidentified heroes with impressive ceremonies and elaborate memorials are now erected over these bodies in

honor of the great number of unknown dead.

It is resolved hereby, that Lowell Post, 57, American Legion, department of Massachusetts, hereby favors similar action by the United States, and that an unidentified body be buried either beneath some suitable memorial already erected, with proper ceremony or that such a body be buried and a suitable new memorial be erected over it, and

"It is also resolved hereby, that a copy of these resolutions be sent to national headquarters of the American Legion, with a view of creating a sentiment in favor of the return to the United States of the body of one of our unknown American soldier dead."

By today disclosed the fact that Mrs. Helen Hartley Jenkins will be the donor of a large sum of money probably in the millions, to form a foundation for general welfare work in Connecticut.

Restaurants' Problem Not So Much Food as a Series of Strange "Whys"

CONSTANCE BINNEY

OF ALL THE THINGS THE RESTAURANT MAN LIKES TO SEE YOU ORDER, COFFEE, TEA OR COCOA GIVE HIM THE GREATEST JOY.

NEW YORK, Jan. 25.—How many pats of butter do you use for your "petit pain," at luncheon or dinner? How many rolls do you eat or destroy?

If you are the average restaurant-goer, statistics show that you will consume one and five-tenths rolls and destroy or waste five-tenths of a roll. You will use three and two-tenths pats of butter in this operation, and in very rare instances, when you have finished your meal with a portion of the butter you have been served, remain on the small butter dish.

With the advent of prohibition, restaurant men have made thorough researches into the profit and loss statement of their business. The old days when my genial host asked not whether you paid cash or placed the check have come by. Among restaurateurs, according to a study by the youngest man in the business in New York, says it is a case of the survival of the fittest.

Bustanoby, who has just passed his twenty-fourth birthday, was the first restaurant keeper in New York to employ a public accountant to ferret out the reasons for his profligate losses. For since prohibition the restaurant business has had need of operating on an entirely new basis. "I am putting up no idea for the restaurant keeper," said Bustanoby, "but I sometimes wonder if the restaurant goer has any idea of what seemingly far-fetched problems we have to deal with."

Some of the "Whys"

Here are a few of the matters the public accountants are puzzling their heads over:

Why will eminently rich and respectable ladies quite frequently "pinch" napkins and towels?

Why should waiters, on threat of strike, insist on having near-coffee for their personal consumption instead of real coffee?

Why do women like less salt in their food than men?

Why do patrons prefer to drink water out of goblets rather than ordinary glasses?

Why do patrons think that flowers placed on restaurant tables are intended for their personal adornment?

"The list is a mile long, these 'whys' we are trying to solve," said Bustanoby, "and few of them have to do with food."

For the sixty out of one hundred people who order meats, twenty will order poultry and the other twenty will order fish.

Of all the things the restaurant man likes to see you order, coffee, tea or cocoa, give him the greatest joy. There lies the greatest percentage of profit. Steaks, chops, etc., yield the smallest percentage of profit.

AMBITIOUS PROGRAM

Duke of Abruzzi, Famous Explorer, to Develop Italian Somaliland

ROME, Jan. 28.—The Duke of the Abruzzi has undertaken an ambitious program to develop the resources of Italian Somaliland, the most eastern part of Africa, by an expedition to that colony on which he has embarked. The distinguished Italian explorer plans to fight the dreadful form of malarial fever which debilitates the people and the terrible tse-tse fly which attacks the cattle. He hopes also to increase the production of cotton and other products of the colony.

He will attempt to accomplish this by controlling the course and the surplus waters of the Ubi Shebell river, the main water supply of the southern portion of Somaliland, known as the colony of Benadir. The duke plans to spend the entire winter in an effort to make it healthy, prosperous and a source of profit to Italy.

An attempt will be made to direct the irrigation of the country adjacent to the river by construction of reservoirs for the use of animals so as to save them from the tse-tse fly which attacks them when they are taken to the river to drink.

Starting from Mogadiscio, the duke will go by the Ubi Shebell river to Maadde, where his enterprise will be centered. He carried a large quantity of agricultural machines and hopes with their aid to develop cotton growing along the river, as the English have done along the Nile.

The government is aiding in the development of Benadir colony by improving the caravan roads which lead into Maadde.

Resinol

a healing household ointment

The same soothing, healing properties that make Resinol Ointment so effective for eczema and many other skin eruptions also make it an ideal household remedy for

Burns Wounds Chafings Cuts Sores Rashes

and a score of other troubles which frequently arise in every home. This is why you should keep Resinol Ointment ready for instant use.

Sold by all druggists, prescribed by doctors.

Retraction and Apology

To the Buying Public:

On various dates subsequent to December 27th, 1920, there appeared in newspapers located in cities where the Newark Shoe Stores Co. does business, advertisements announcing fire sales based upon fires which occurred in Wilmington, Delaware, and Baltimore, Maryland.

The facts upon which this copy was based were not called to the attention of the undersigned until Thursday, January 13th, 1921, when the matter was called to my attention by the Associated Advertising Clubs of the World.

The biggest asset of the Newark Shoe Stores Co. is the confidence of the buying public which it has gained and held through the years, and under no circumstances will we knowingly permit that confidence to be destroyed or in any respect impaired. It has been our practice to deal fairly with the public, and we propose that that practice shall continue.

While it is true that fires occurred in both our Baltimore and Wilmington stores, neither the fires nor the size of the stocks involved would warrant this company in conducting fire sales in all of its stores, as the entire stock in these two stores, if distributed proportionately among all of our stores, would be entirely too insignificant to give any sale the title of a fire sale.

The buying public who purchased goods at these sales received Newark Quality at Newark Prices. Though we feel that perhaps the public has suffered no financial loss, nevertheless, in line with our policy of never deceiving the public or inducing them to buy on any catch phrase, we offer without restriction to refund the purchase price to any of our customers who are in any way dissatisfied with their purchase made at that sale.

The fire sales have, of course, been discontinued, and we desire again to emphasize the fact that we think more of our reputation with the buying public than we do of money they leave on our counters.

We welcome any suggestion that would aid us in safeguarding the public who deal with us.

We believe in fair competition, in truthful advertising, and above all we believe in square dealing with our public.

We appreciate keenly the action of the Associated Advertising Clubs in bringing this matter to our attention as we also appreciate the action of any individual anywhere at any time bringing to our attention anything which will aid and assist us in further protecting what, as I have said before, is our biggest asset—the confidence of the buying public, which in plain English means what the public thinks of us. We are very jealous of our reputation and will go to any extreme to protect it.

MORTON SAMUELS, President
Newark Shoe Stores Co.

TRADE TOUR OF MEXICO

Plans Complete for Proposed
Trip By Group of Mass.
Manufacturers

Plans are complete for the proposed trade tour of Mexico by a group of Massachusetts manufacturers under the auspices of the Associated Industries of Massachusetts. It is hoped to secure a sufficiently large group for at least one special train of five Pullman cars, a dining car and a combination club car, which will leave Boston on Saturday, March 12, and return on Monday, April 4. While the tour is primarily for Massachusetts manufacturers, representatives of industrial concerns in the other New England states will be welcome.

The plans provide for a stay of two weeks in Mexico, where arrangements are being made by government officials, merchants and bankers for the

entertainment of the visitors in Mexico City, Tampico, Monterey and San Luis Potosi. Hon. Salvador B. Portillo, the consul de Mexico in Boston, will accompany the party by permission of his government, and two English speaking representatives of the Mexican government will meet the party at Laredo, Tex., and remain with it, acting as interpreters during its stay in Mexico.

The purpose of the proposed tour is to give Massachusetts manufacturers an opportunity, under the most favorable conditions, to study the possibilities of extending their markets in Mexico; to establish more friendly relations between the officials, merchants and people of Mexico and the industrialists of Massachusetts; to try to make the Mexican people understand that the manufacturers of Massachusetts are not ultra-conservative, but are ready to serve their needs upon a fair basis; and to show them that in this industrial section are manufacturers of the highest quality.

That Sore Throat Needs
Begy's Mustarine

When your throat is sore, it's a sure sign you need Begy's Mustarine. That is, if you want to get rid of it in the quickest possible time.

It's no exaggeration to say that it often conquers them over night, and it's just as speedy a remedy for neuralgia, lumbago, stiff neck, aching feet, sore muscles and swollen joints.

Rub it on freely. It cannot blister, but it surely will ease the pains of rheumatism and gout, and you won't have to wait till tomorrow for relief. You'll get it to-day--often in an hour.

30 or 60 cents buys a yellow box full of Begy's Mustarine and one small box will do the work 50 blistering mustard plasters.

Sold by Fred Howard

manufactured at least 75 per cent of the commodities of which Mexico stands in need.

Authorities agree that there never were such opportunities for trade between the United States and Mexico as there are today, and that they are constantly increasing. A representative of a concern affiliated with the Associated Industries of Massachusetts, who spent four years in Mexico and had only recently returned, says there are hundreds of millions of potential contracts in Tampico alone for products of which more than 25 per cent are manufactured in Massachusetts and other parts of New England. The National City Bank of New York says "the opportunities for American trade with Mexico today are greater and more propitious than they have been in many years, if ever before."

also

that Mexico is now a safe place for Americans to travel in and do business, and that the losses incidental to doing business with Mexicans, under present banking arrangements, are no greater than those attending similar business done between concerns in the United States.

The industries of the middle, far west and southwest have sent delegations to Mexico, where they were royally entertained by the government and by private citizens, and they are now reaping the benefit in trade advantages. It is the hope of the Massachusetts manufacturers who are sponsoring this proposed tour of Mexico that they can offset these advantages by dispelling some of the ideas now current in that country about the difficulty of doing business with manufacturers in this section, and by showing them that it is decidedly to

their advantage to do business with an industrial centre which in many respects has no peer in the world.

HOLDS MASTER KEY

Warwick's "Yes" Opens
Treasury; "No" Closes It

(N.E.A. Staff Special)
WASHINGTON, Jan. 23--"No--or maybe 'Yes'!"

And that settled it! When Walter Winter, Warwick, comptroller of the United States treasury, decided it was within the law to let loose some of Uncle Sam's money, he turned the key to the nation's strong box.

But when he decided it isn't lawful--even the president can't dispute him. A man with a bill against the government, which the comptroller has refused to pay, has only one recourse--to carry his case into the court of claims and obtain a verdict.

Even then, to collect he must induce passage of a special act of congress. Recently an appeal was carried over Warwick's head to President Wilson. It concerned the railroads and money they ask to pay the back wages and to purchase equipment.

Warwick has refused to "open up" because the amount claimed was not accurately ascertained and hence was not within the law.

President Wilson, pigeon-holed the appeal. He couldn't do anything else. The office of the comptroller was established in 1789. Six auditors assist him. And there are 32 lawyers, clerks, accountants and stenographers in Warwick's office.

The only time comptroller Warwick benefits himself by turning the "master key" is when he collects his \$4000 a year.

TEETH PILING FATAL

PORTLAND--The extraction of 23 teeth without the use of an anesthetic is given as the cause of the death of James Bond, deputy county clerk here.

"SALT HORSE" NOT ON SAILORS' MENU

SYDNEY, Australia, Jan. 23--The changes which have taken place in the demands of seamen as compared to the times when "salt horse" was the chief food in the forecabin, are shown by a new set of requests just formulated by the Federated Seamen's union.

They ask that their menu should include canned fruits, condensed milk, Worcestershire and tomato sauces, rolls and scones, bacon

and eggs, boiled eggs, steak and onions, soups, Irish stew, roast beef, mutton, veal, assorted salads, cakes, plum pudding with sauce, custards and jellies. "Salt horse" was not on the list. Enamelled utensils and clean tablecloths three times a week are insisted upon.

FRESH MILK ASSURED

TACOMA--Axel Johnson, owner of a fleet of 30 vessels, wanted fresh milk on a contemplated trip around the world for himself and family. Two pure-bred Hereford cows, installed on the aft portion of the deck with a vat of milk, was the result.

DECISION MADE AFTER LAST FIERCE ATTACK

Mother of Three Had
Continually Refused
Friends' Good Advice

Final Sufferings Lead to
Taking Toxo Treatment

"Although I am only 30 years of age, I have been caring for my mother for a long time. You see, mother was sort of an invalid. That is, she believed she would never be cured. Many a sleepless night she spent due to her stomach trouble. For days at a time I had to tie her head up with a cold cloth, or use an ice bag."

Besides, she was nervous and very weak, and troubled with bilious attacks. We'd been trying an old family remedy that she insisted was good, but it didn't seem to get bowel movements. Finally, I thought of my friend Mabel's mother who had been ill for a few days and was now more lively than ever.

So very soon after, I made a special visit to Mabel's house. I hesitated to talk of mother's ailments, but good

fortune was with me. It seems Mabel's father had stayed home that day with stomach trouble due to eating a lot of poor food in a restaurant. I saw Mabel giving him something to take and asked what it was.

Well, I sure heard good news! Mabel told me its name was Toxo, and it was a treatment for constipation. From the label she read how it did not force the bowels to act, but allowed free and smooth movements. Also how it helped indigestion by moving all waste matter in the bowels. Mabel told me how her mother had been helped by this Toxo treatment for her constipation. Oh, what wonderful news for me!

I finally broke away and almost ran to Dows' Drug Store and procured a package of Toxo. Mother was almost willing to die, she had been so miserable when I commenced to care for her Toxo treatment.

You ought to see my mother today! Why, she is as happy and as healthy as anyone. She has a wonderful appetite, her headaches never bother her, her nervousness has disappeared and she has become an enthusiastic Toxo booster. Toxo, the wonderful treatment, has a place all its own in my family's heart for the good it did my mother.

You can get a package of Toxo, the treatment for constipation and indigestion, at Dows' Drug Store on Merrimack street today. Keep it in the house always.--Adv.

FOR LUMBAGO

Try Musterole. See How
Quickly It Relieves

You just rub Musterole in briskly, and usually the pain is gone--a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment, made with oil of mustard. Use it instead of mustard plaster. Will not blister. Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest. Always dependable.

35c and 65c jars; hospital size \$1.

MANY TAKE

cold easily and develop troublesome coughs that often hang on.

SCOTT'S EMULSION

is a food replete with tonic-qualities that improves the appetite and builds up resistance to overcome the cause of the weakness.

MAN BURNED TO DEATH

Five Persons, Including Two Babies, Injured In Boarding House Fire

CHICAGO, Jan. 28.—A bed-ridden man was burned to death, five persons were injured, including two babies, who were dropped from a third story window, and a dozen others were rescued early today when fire attacked a boarding house in the North Side residential quarter.

Albion Bryant, a nephew of the owner of the house, was too weak from illness to escape.

Alex Mayer, his wife and two babies appeared at a third story window. Smoke whirled around them and the parents held the children at arms length from the sill to give them air.

A burning timber from the roof struck Mayer on the head and he collapsed over the sill, the child falling from his arms. The other child, dropped to neighbors below when Mrs. Mayer was unable to sustain her burden, slipped through waiting hands to the pavement.

The parent, who erected ladders, rescued by firemen, who erected ladders.

LOWELL HIGH SCHOOL PLANS TRACK MEET

On Tuesday afternoon, Feb. 22, Washington's birthday, at 3 o'clock, the high school will stage an inter-class track meet in the high school annex drill shed. The meet will be under the direction of James Conway, athletics director for the school.

This will be the second annual inter-class meet and will be fully as exciting as a similar meet held on Washington's birthday last year. The members of the teams of the winning class will be awarded their class minerals as prizes. The members of the varsity track team, who compete in inter-school meets will be ineligible, and thus it will tend to bring out more material for track events, the real purpose for which the affair is planned.

In connection with the meet, a special relay race will be staged for boys of the grammar schools of the city, in which the relay teams from each grammar school may be entered. The members of the winning relay teams will be awarded suitable prizes.

Last year's inter-class meet proved such a success that it was thought advisable to make the event an annual affair. On the Friday preceding the day of the meet, the inter-class relay contests will be held in the annex. At that time, men to represent the four classes of the school will be chosen. A large number of inter-class candidates is expected to turn out.

LOCAL MERCHANTS OBJECT TO AUCTION

Lowell merchants are making strenuous complaints and protests to the police and the chamber of commerce relative to an auction sale of groceries, flour, sugar, canned fruits, canned vegetables, dry fruits and other household articles, including various pieces of clothing, opened up in this city Thursday afternoon.

The basis of their complaints is that the auction is to be held for only a few days to catch up the cream of the Lowell trade and is not intended for a permanent stand. Another argument in the complaints by many of the merchants as received at the chamber of commerce is that several other merchants have recently been ordered out of the building in which the auction is being held, because of certain renovations and remodeling to be done by the building owner. Because the building is to be completely renovated, the merchants claim that it is prima facie evidence that the auctioneer does not intend to make a permanent stand and so should be classed as an itinerant merchant.

CHECKS FOR RETAINER PAY UNCLAIMED

WASHINGTON, Jan. 28.—More than 50,000 checks on the treasury for retainer pay due naval reservists are unclaimed at the navy department because of the failure of the reservists to keep the department informed of their correct address, it was announced today. Numerous complaints have reached the department from men alleging failure to receive retainer pay, and in most cases the failure was due to an incorrect address at the department.

All of the checks now unclaimed were mailed to the last address received at the department and were returned by the postal authorities.

ARE ORGANIZING WOMEN'S TRUST CO.

PHILADELPHIA, Jan. 28.—What is said to be the first title insurance company in the United States organized and conducted by women is now in progress of formation in this city. It will be known as the "Women's Trust Co." Application will be made to Governor Spruill for a charter.

The applicants are Julia M. Taylor, Jessie M. Snower, L. Edna Hawmen, Julia Hart Cummings and Katherine Garfield Emmer. Their attorney is Cecelia P. Bass.

Miss Snower is a dean at the University of Pennsylvania.

INTERCOLONIAL FLEET

PLANNED BY BRITAIN

LONDON, Jan. 28.—The Times today announces a plan for the creation of an intercolonial fleet, which is described as "a step toward a West Indian federation for commercial purposes and which must be the forerunner of a political federation."

The article says a closer union of the scattered western units of the empire is planned by means of a unification of the laws of currency, customs and tariffs and the development of sugar and other industries, especially in Jamaica, which, the article says, is being denuded of native labor by Cuban sugar estate owners.

A flying base will shortly be established in Trinidad for the extension of a mail route from Canada to South America by way of the Bermudas and the Bahamas, the article says.

WHOLESALE FRAUDS IN PASSPORTS

ATHENS, Jan. 27.—(By Associated Press).—Wholesale frauds in passports carried on by Greek subjects emigrating to the United States, have been discovered by W. L. Lowrie, American consul general here. More than 50 passports were submitted at the consulate today for American visas and 25 were found to bear forged signatures and false seals of the Greek foreign office.

It is feared many Greeks already have secured admission to the United States, in similar spurious papers, as some 2000 persons seek American visas each month. Greek authorities have made several arrests and steamers bound for New York from Greek ports are being held, pending the inquiry.

"A SOLDIER OF FRANCE"

Simple Ceremonies Marked Permanent Entombment Under Arc de Triomphe Today

PARIS, Jan. 28.—Simple ceremonies marked the permanent entombment of "A Soldier of France," representing the French unidentified war dead, under the Arc de Triomphe today. A plain stone slab marks the resting spot of this unknown hero.

Detachments of all arms of the military service participated in the ceremony, while the families of thousands of unknown soldiers dead surrounded the Arc de Triomphe. To the rolling of drums, the sounding of bugles and bands playing the Marseillaise, the body was lowered into the tomb. Minister of War Barthou then placed on the casket the military medal, the war cross and the insignia of the Legion of Honor.

DETAILS OF FLIGHT OF GROVER BERGDOLL

PHILADELPHIA, Jan. 28.—Details of the flight of Grover Cleveland Bergdoll, wealthy draft evader, became known here today, after publication of dispatches from Germany describing efforts of Americans to kidnap him there.

Reports received by department of justice agents here said that Bergdoll had stolen the service button and discharge papers of an American Legion man in Winnipeg, and got a passport out of Canada.

Eugene Stecher, Bergdoll's chauffeur, who is with him in Germany, is under indictment here for aiding in Bergdoll's escape from army officers at his home here on May 21 last. It is alleged that Stecher, familiarly known as "Ike," made the plans for Bergdoll's flight and that he had an automobile in readiness when his employer slipped away from his guards on the pretext of answering the telephone.

With Stecher at the wheel of the motor car, the fugitives led the government agents a wild chase across the country and finally eluded them in Winnipeg. They abandoned their automobile in Minnesota.

9401 STILLS SEIZED AND 5328 ARRESTED

LOUISVILLE, Ky., Jan. 28.—A total of 9401 illicit stills were confiscated and 5328 arrests were made last year in the southern prohibition district, which comprises Virginia, North Carolina, South Carolina, Kentucky and Tennessee, according to figures made public today by S. R. Beams, supervising agent of the district.

Prosecutions resulted in fines aggregating \$250,000, and imprisonments totalling 275 months.

The value of property seized for sale was \$1,000,000, and property destroyed at \$1,500,000. Taxes and penalties assessed aggregated \$350,000.

B. & M. DEFICIT OF \$10,000,000

(Special to The Sun) BOSTON, Jan. 28.—Notwithstanding the fact that the Boston & Maine railroad handled last year the largest tonnage in its history, it finished the year with an operating deficit of approximately \$10,000,000, the largest ever known.

This regrettable showing is attributed almost wholly to the increased costs of fuel and materials, and to the retroactive wage award.

In 1920 the road hauled 3,705,217,000 revenue ton miles of freight, an increase of 12.5 per cent over 1919, when the figure was 3,293,550,000 ton miles.

The highest previous record ever reached by the road was 3,512,515,000 ton miles.

One of the large factors in making the tonnage record was the unprecedented amount of coal hauled. Not only did this serve to break the record, but it also sustained the volume of traffic when general freight began to show a falling off.

To Protect American Manufacturers

WASHINGTON, Jan. 28.—Practically doubled import rates and clarification of tariff statutes were asked of the house ways and means committee today by the manufacturers of floor covering. Witness said present laws were susceptible of varied interpretations and also argued for legislation to protect trade names of American manufacturers. Representatives of grass and fibre rug manufacturers said the Japanese as well as some of the European nations, had made inroads on their domestic market.

To Amend Clayton Anti-Trust Act

WASHINGTON, Jan. 28.—The Freyhuysen bill amending the Clayton anti-trust act so as to remove restrictions on railroad transactions with companies having interlocking directorates, was favorably reported by the senate interstate commerce committee today, modified to provide for supervision of such transactions by the interstate commerce commission.

Japanese Population In Hawaii

WASHINGTON, Jan. 28.—The Japanese population of Hawaii in 1920, was 109,274 out of the total population of 255,912, and represented an increase for that race of about 33 per cent since 1910, the census bureau announced today. The only race which showed a greater increase in Hawaii than the Japanese was the Filipino with an increase from 2361 in 1910, to 21,031 in 1920. The native Hawaiian peoples decreased in the last decade from 26,041 to 23,723.

Leaped to Death Above Niagara Falls

NIAGARA FALLS, N. Y., Jan. 28.—An unidentified man jumped into the river above the falls early today, and was swept to death over the American brink. The man talked to Reservation Officer S. W. Rhodes just a few minutes before he made the leap. He said he was from Cleveland.

To Cut Wages in Ship Yards

ELIZABETH, N. J., Jan. 28.—A proposal to reduce production costs 25 per cent by lowering wages has been submitted to the employees of the four shipyards of the Bethlehem Shipbuilding Corporation. This was learned today when Eric Ewert, general superintendent of the local plant, began holding conferences with representatives of the employees. The ship plants of the corporation to be affected by the wage reductions are located here and at Quincy, Mass., Sparrows Point, Md., and Wilmington, Del.

ASKS BRINES CASE BE TAKEN FROM JURY

PHILADELPHIA, Jan. 28.—A motion that the case be taken from the jury on the ground that insufficient evidence had been presented by the state to sustain the indictment against William P. Brines, University of Pennsylvania sophomore accused of slaying Elmer C. Drewes, a Dartmouth college senior, was made at last night's session of Brines' trial by his counsel, William A. Gray.

The motion came as a surprise just after Assistant District Attorney James Gay Gordon, Jr., had announced that the state has completed its case. Mr. Gray declared his readiness to argue his motion last night, but at the suggestion of the court postponed it until morning. Counsel for the defense made seven other motions to have testimony stricken from the record but was overruled in each instance. He announced that if his motion to have the case taken from the jury is denied, he would call some witnesses for the defense today.

William P. Brines, the University of Pennsylvania sophomore on trial charged with having killed Elmer C. Drewes, a Dartmouth senior, was the author of the mysterious letter signed "Samuel Stages" which, it is contended, lured Drewes to his death. In the opinion of a handwriting expert who testified yesterday.

"Comparing specimens of the defendant's handwriting on three university examination papers and two applications for automobile licenses, the expert, Elbridge W. Stein, said it was the same as that in the 'Mages' letter, which was sent from Reading, Pa., to Drewes at Dartmouth college, Hanover, N. H., and which contained an offer to sell him an automobile. Another handwriting expert, T. H. McCool, concurred in the opinion.

The bullet which killed Drewes was "almost certainly" fired from the pistol found in a deserted automobile alleged to belong to Brines, Dr. William C. Wadsworth, coroner's physician, testified. Dr. Wadsworth had based his opinion on a tiny streak of rust found in the barrel of the pistol, which would account for indentations in the bullet that drilled a slightly downward course through Drewes' forehead.

The slain found on the door of the automobile was declared to have been human blood by Dr. John Albert Kolmer, professor of pathology and biology at the University of Pennsylvania.

Arguments On Motion

PHILADELPHIA, Jan. 28.—The entire morning session of the trial of William P. Brines, charged with the murder of Elmer C. Drewes, Dartmouth senior, was taken up with argument on a motion of the defense to take the case from the jury and discharge the defendant.

KILLED BY EXPLOSION

200 Thrown Out of Work When Boiler Blew Up

MONTREAL, Jan. 25.—Two hundred persons were temporarily thrown out of work today when a boiler exploded in the heating plant of the National drug Co., killing Alfred Robsch, a porter, and injuring two other persons.

NEGRO HANGED

Protests Innocence, Saying Father Knew Murderer

BAITIMORE, Jan. 28.—George H. Terry, negro, assailant of Mrs. Sadie Sibley, a white woman of Mount Winans, a suburb, was hanged at the city jail today. On the scaffold he declared he was innocent, saying his father knew the man for whose crime he was convicted.

Peasant girls in France, Belgium and Italy sell their hair at regular periods to dealers.

BUSINESS IMPROVEMENT

Normal Conditions By April or May, Says Prof. Bullock of Harvard

BOSTON, Jan. 28.—A return to normal business conditions by April or May, was predicted last night by Prof. Charles J. Bullock of Harvard university at the annual dinner of the Associated Savings Trust Companies of Massachusetts. "Unless," he added, "exports fall off unduly, in which case, we shall not emerge from our troubles before summer or fall." Prof. Bullock, who is chairman of the committee on economic research at Harvard, said the gloomy and ebbing tides of business prosperity have been recurrent since the beginning of time and may be expected to continue.

"We should have suffered the worst panic in history," he said, "but for two factors; for the first time Europe was our debtor to the extent of 15 or 20 billions, and we had our federal reserve system. Wholesale prices never fell so fast nor so far in so brief a period as now. We now appear to be in the last phase; liquidation of retail prices and labor."

Feeling Pinch of Poverty

Continued

accumulated savings of \$50. "But I have had to spend all that," he said. "I've been out of a job for four months now."

Binaski also told of his landlord threatening to eject him and forcing him to move to another house. "I told him I would pay him when I got work," he said, "but he said he would not wait, and would put me and my wife and children out unless I paid at once. I borrowed five dollars from a friend Monday and we have been living on that. But I think I can get some more to last until I go back to the mill."

Binaski said that when working he received \$25.56 a week. He told a Sun reporter that he was willing to accept any sort of employment, and that he did not want his children sent away. The children were left in his care by Judge Enright, who continued the case to give Binaski an opportunity of taking care of them.

In the cases of the eight children given to the state's care, it was testified that efforts to secure proper care for them had been going on for a year. The children are a boy 14, a girl 13, two boys 11 and 8, two girls 5 and 3, and two boys 3 and 1 year of age.

To the other three children were accompanied by their mother only, who testifies that the father had deserted them. She has had six children in all, three having died. These children were placed in the care of Agent Richardson of the Lowell Humane society, while continuance was given for final disposition of the case.

MEMBER OF IRISH PARLIAMENT QUILTS

LONDON, Jan. 23.—Roger N. Sweetman, a member of the Irish republican parliament, has resigned, giving as his reason a radical disagreement with the majority of his fellow members on vital matters of policy.

ON WAY TO MAINT GRAS

PITTSBURGH, Jan. 25.—Carrying passengers from the eastern section of the country to the Mardi Gras celebration at New Orleans, the steamship Queen City is en route to the south today. The boat, with many of its berths occupied, steamed from the Pittsburgh harbor late yesterday. Passengers from office and towns along the Ohio and Mississippi rivers will be picked up as the steamer makes its way southward. The Queen City is due to arrive at New Orleans Feb. 6.

Cement is being used instead of lead to make joints in cast-iron water pipes.

photo of these three men? Or shall I call and see if they are the men.

JOSEPH PETERS,
116 Chandler Street
Boston.

Nath Hanner Clue

A vital feature of the story told in Peters' letter is his mention that one of the men who held him up was armed with a nail hammer. When the police searched the room of the Thiberge brothers, they found, among other incriminating articles, a hammer. This may prove to be the connecting link between the Boston holdup, and the activities of the local gunmen. It is pointed out that the carrying of a hammer as a weapon is not usual in the case of robbers, and consequently, Peters' identification of the trio, together with his statement of their possession of the hammer, seem to be a revelation to such extent that the Lowell gunmen may soon have this crime added to their list of alleged misdeeds.

Attorney Cornelius J. O'Neill, junior counsel for the defendants, was at Cambridge yesterday, and conferred with the accused men. No other important activities on the part of the defense have yet been made public. Attorney Daniel J. Donahue, who will conduct the defense of both Forster and the two Thiberges, stated this morning that he expected the case to come to trial within a short time.

The scheduled preliminary police court hearing which was set for February 4, will be suspended by the meeting of the grand jury, as a result of District Attorney Nathan A. Tutts' action in convening a special session of this body on February 3. This development deprives the defense of an opportunity to procure an idea of the government's line of testimony. It is considered beyond question that the grand jury will arrive at a speedy indictment. The next step in the legal machinery will be the pleas made by the defendants. They will, it is thought, undoubtedly reiterate their guilty pleas which they gave in the police court on the morning which followed the shooting. The date for the trial will then be set.

Will Have Speedy Trial

The district attorney's office appar-

ently shares the desire expressed by Attorney Donahue for a trial in the near future. The trial may possibly be held in this city, as it is understood that the majority of the government witnesses are Lowell residents, and less expense and trouble will be involved if the court is held here. However, Cambridge may be selected as the scene of the battle for life by the three gunmen. In the event that the latter city is selected, the East Cambridge court house will unquestionably be taxed to capacity by throngs who will be eager to follow the testimony.

Reports are still current in police circles to the effect that a fourth man may be implicated in the killing of Forster. The opinions of some, however, are to the effect that they discredit the tale of the accused men, which charge that this party, now thought to be at large, directed and played the leading part in the crime.

BURNS ANNIVERSARY

Concert and Dance By Clan
Grant—Mayor Thompson
in Tartan

Mayor Perry D. Thompson, arrayed in a kilt, and delivering a brief address in which humor and more serious themes were cleverly mingled, proved one of the features at the Burns anniversary concert and dance held by Clan Grant, 111, Order of Scottish Clans, and attended by hundreds of local Scotsmen and women at Asquith hall last evening. "I am indeed proud of the Scotch blood which flows in my veins," declared the mayor, who called upon all of the Caledonian blood to be in the fore in these times of unrest. "The Scots," he said, "are known as a hardy and steadfast race. And the need today is for such men and women. You, then, must live up to the traditions of your blood. You must give your best to the community, the commonwealth, the country, you, to the world. For you have the sturdiness of heart which our country needs today. If we carry such a spirit forth with us in our daily life, our country will be always as free and happy as it always has been, and we need not fear for the future."

Scottish ballads, many of them by the great singer whose birth was being celebrated, were sung by Mrs. Nettie Roberts and Miss Rita B. Thompson, both of Lowell, together with J. Cameron MacLean of Detroit, and Theodore Martin of Hamilton, Ontario. The entertainment was highly successful, when Miss Rita B. Thompson and Miss Flora MacLean appeared and danced the Highland fling and the sword dance, to the tune of a bagpipe. These young ladies are models of agility and grace, besides being charming to look at. Kilted and captured they made a picture that will not soon be forgotten by those who saw them last night. Later in the program they danced a Scotch hornpipe and an Irish jig. The soft shoe dancing which the latter number involved was executed in a manner which bespoke a versatility far above that of many professional performers.

Mezars, Martin and MacLean wore the Scotch full dress evening clothes. For the benefit of the unemployed it should be stated that this includes the usual dress shirt and white tie, plus a kilted coat adorned at sleeves and knee with pearl buttons. In lieu of trousers knickerbockers of the clan plaid are worn. Mrs. Roberts also appeared in the costume of a Scottish fisherman, wearing one of her song groups.

Mayor Thompson was accompanied by Mrs. Thompson, and they were escorted to the front seats by ushers wearing the tartan.

The program was as follows:

Quartet, "There Was a Lad"
Miss Thompson, Mrs. Roberts, Mr. MacLean, Rita B. Thompson.

Song:
a. "Scots, Wha Hae!"
b. "Hurrah for the Highlands!"
J. Cameron MacLean

Song:
a. "Flow Gently, Sweet Afton!"
b. "Whistle and I'll Come to You, My Lad!"
Miss Rita B. Thompson

Dances:
a. Highland Fling
b. Sword Dance
Misses MacLean and Crockett
Song:
a. "Once Again in Dear Old Scotland!"
b. Selected.
Theodore Martin
Song:

CHILMARK NEWS

Time of Filing Nomination Papers For Annual Election Expired Last Evening—List of Candidates

At the expiration of the time limit for the filing of nomination papers for the coming annual election of officers for the town of Chilmark last evening the following candidates had filed the necessary papers to have their names placed on the ballot: Moderator, Walter Perkins; town clerk, Raymond C. Hazeltine; Justin L. Moore, selectman and overseer of the poor, Edward T. Brock, Samuel S. Kershaw, George Rigby, Theodore C. Holgate; school committee, Rev. C. H. Ellis, (3 years); M. Edwards, (2 years); assessor, James P. Thompson; William J. Gutzler, constable, William Foster, Charles L. Pettie, Fred S. Vinay; board of health, Albert L. Buey, (3 years); town treasurer and collector of taxes, Ervin W. Sweetser; trustees of Aquana House, Albert H. Davis, A. Heady Park; tree warden, Charles R. Forsythe; sinking fund commission, William H. Smith; cemetery commission, Charles F. Schinner, (3 years); Ralph E. Adams, (1 year); park commissioner, Fred L. Fletcher, 3 years. But one candidate can be elected to the above offices except of trustees of the Aquana house, where two will be chosen. The election will take place February 7.

CHALLENGE ACCEPTED

In regard to the challenge of Mr. Gutzler and Mr. Schinner, Mr. Ellis, Mr. Brock, of the Aquana house, bowling league will join them at their pleasure. "Muddy folks," say Ellis and Brock.

BE GOOD TO THE BIRDS

Uncle Sam and the American Forestry association ask all the boys and girls in the country to build bird-houses—right away—so they'll be ready for spring newcomers. Children down in Washington are doing it with vim. This picture shows a birdhouse that won a blue ribbon in Washington school contests being mounted in a tree by its builders. Inset is Peggy Baker, daughter of War Secretary Baker, with the birdhouse.

Water Supply Development

Continued

ent under consideration. This involves the creation of great filtering plants at several advantageous places, scattered through the commonwealth, and it was admitted today that the commission believes this plan not to be feasible.

The matter has been under consideration for nearly two years, but no authentic information as to the progress made has been obtainable until today, when Eugene H. Kelley, commissioner of public health, and N. J. Goodnow, chief engineer for the department, were before the legislative committee on water supply and asked that the time for completing the study be extended until next January. After they had explained the exigencies of the matter, the committee voted to report favorably on their request.

Situation Very Serious

Dr. Kelley stated that the water supply situation is very serious in many localities in Massachusetts.

"There has been an almost complete suspension of water supply development," he said, "and were it not for the fact that the Almighty has been fit to give us eight successive years with rainfall above normal, there are many communities in Massachusetts which would be finding it impossible to supply water in sufficient quantity to their inhabitants."

inhabitants.

"It is only a question of time, and in all probability a very short time, when we shall have a dry season, and when it comes we shall be in a serious predicament. Ordinarily, we average one really dry season in fifteen, but in the past few years, it would not be at all surprising if our dry season were to come earlier than it ordinarily does."

In addition to the growth in population, which is very steady and continuous, there has been recently an increase in the per capita consumption of water.

The metropolitan district has nearly reached the limit of development in its present sources of supply. The Wachusett basin, from which the metropolitan district is supplied, is capable of producing perhaps 6,000,000 or 7,000,000 additional gallons, but the city of Worcester is clamoring for some of that, and recently the engineers of Lowell, Lawrence and Haverhill have asked us why those cities should not be admitted also to that source of supply.

"Lowell is much nearer the Wachusett reservoir than Boston is, and the other cities are so situated as to be in almost a straight line from that basin. Preliminary studies indicate that a conduit could easily be laid to serve those three cities."

Too Much for Wachusett

"But the difficulty is that Wachusett is not capable of supplying Worcester and Lowell and Lawrence and Haverhill in addition to the metropolitan district. It is absolutely necessary to find another large source of supply, and the only such source we have been able to locate is the watershed of the Merrimack river."

"By building a great dam at this point of their confluence we can create immense reservoirs which will be capable of storing millions and millions of gallons of water, and the water can be transferred by gravity to the Wachusett basin, where it will afford a sufficient and steady supply for the 15 cities mentioned."

No very great engineering difficulties are involved. It will be necessary to build an immense pier, and a this will cross a range of hills it will be necessary for a part of the distance to tunnel. It is for the purpose of giving adequate study to these engineering problems, and of determining the approximate cost of the development, that we ask permission to devote another year to the report.

Bed Block Problem

"Perhaps have been made at this time, and the study is now being carried on. The present river is a great difficulty in the line of this. This must be found, as we can not afford to place ourselves in the same situation as Seattle, Wash., which erected a \$2,000,000 dam on a location where it would not hold water."

As for the wiping out of one town and serious injury to others may not involve the commonwealth in tremendous damage suits. Chief Engineer Goodnow replied in the negative. He said the land involved consists mostly of abandoned farms, for which the state would have to pay little. Certain mill rights, he said, may be affected, but in his opinion they will be benefited instead of injured. Many of the mill owners are handicapped, he said, because of the uneven flow of the water; at times there is so much as to bother them, and at other times they are unable to get any. If the development is carried out as proposed, he pointed out, there will be a steady flow of water throughout the year.

LATE FIGURES ON RED CROSS ROLL CALL

The city of Lowell contributed 9235 of the 16,143 members of the North Middlesex Red Cross Chapter now on the rolls, according to figures recently tabulated. Surrounding towns which constitute part of the Lowell district and have their headquarters here, are credited with 232 additional memberships.

The release for publication of these figures constitutes an affirmation of the Red Cross Roll Call held last season. Red Cross Roll Call held last autumn. They show that heading has the largest total for any branch, with 1,255.

A miniature motorcycle, weighing only 32 pounds, is the latest product of Germany.

Catarrh Will Go Help Comes in Two Minutes—Complete Relief in a Few Weeks

Don't go on hawking yourself sick every morning. It's cruel, it's harmful and it's unnecessary.

If after breathing Hyomei, the wonderworker, you are not rid of vile catarrh you can have your money back.

No stomach dosing—just take the little hard rubber packet inhaler that comes with each outfit, and pour into it a few drops of Hyomei. Breathe it according to directions. In two minutes it will relieve you of that stuffed up feeling. Use it daily and in a few weeks you should be entirely free from catarrh.

Breathing Hyomei is a very pleasant and certain way to kill catarrh germs.

Get a Hyomei outfit today. It's sold by druggists everywhere with guarantee to quickly and safely end catarrh, croup, coughs, colds, sore throat and bronchitis or money back. It's inexpensive.—Adv.

ME-ONA Ends Indigestion

It relieves stomach misery, sour stomach, belching and all stomach disease money back. Large box of tablets at all druggists in all towns.

OLD FASHIONED DANCES AND GAMES

Old-fashioned square dancing, cotillion figures, social dancing and games will constitute tonight's program at the Lowell Community Service play school, which will hold its final session in Community Service hall, at the Towns building. Mrs. Julian B. Keyes and Miss Louise French will be in charge.

Nearly one hundred local persons, representing religious, educational and welfare organizations, have been enrolled for the course.

The public grammar school physical directors directed last night's features, which included the singing of folk songs of various nations, to which English words have been adapted. Games and stunts were participated in by young and old.

Mrs. Keyes and Miss French, under whose auspices the fifth and last series of play-instructions will be conducted, are both prominent in this work, and have had wide experience in all its phases.

Held For Attempted Attack On Girl

CHICAGO, Jan. 25.—Herbert Prentice Crane, Jr., grandson of the late Richard T. Crane, millionaire Chicago steel manufacturer, was held today on charges of an attempted attack upon 13-year-old Louise Sturm in Lincoln Park, Wednesday evening. Crane, who is 37 years old, confessed, according to the police, after the girl and her companion at the time of the attack, Marie Fischer, identified him.

Missing Vase Given K. of C. Head Found

NEW YORK, Jan. 25.—A \$5000 Sevres vase, lost in transit after its presentation by the president of France to James A. Flaherty, supreme knight of the Knights of Columbus, has been found in Constantinople, a message received here today said. It had been placed by mistake in a shipment of furnishings for the Knights' club there.

Postal and Telegraph Employees Strike

ROME, Jan. 27.—All the postal and telegraph employees have gone on strike, and services in these departments have ceased as a result of a collision between employees and the Fascisti which necessitated police intervention.

Service is the outstanding factor in favor of QUAKER RANGES and has been for close on to seventy years. Modern in the application of practical labor saving features, but old fashioned in the maintenance of merit in every stage of its structure. VIEW OF CHANCEL AND AUDITORIUM OF REBUILT ALL SOULS' CHURCH TO BE DEDICATED SUNDAY

To Celebrate Church Union

Continued

will be a fellowship service to "celebrate the union of two pasts into a single future." The speakers will be Rev. Howard A. Bridgman and Rev. Samuel A. Elliot, D.D., both of Boston. Dr. Bridgman is the editor-in-chief of the "Congregationalist," a weekly paper with a nation-wide circulation. He is known to lovers of New England through his recent book entitled "New England in the Life of the World."

Dr. Elliot has for more than twenty years been president of the American Unitarian association. Last summer Dr. Elliot was one of the American representatives at the conference in St. Beatenberg, Switzerland, of the World Alliance for the Promotion of International Friendship. He took part also in the celebration of the tercentenary of the sailing of the pilgrims from Holland.

As a member of the Indian commission, appointed by President Taft, Dr. Elliot has been identified with many reforms in the management and educational system of Indian reservation.

An Old Custom

Monday afternoon at 3 o'clock comes the meeting of the "Congregational-Unitarian" council. It is the custom, handed down from the past, for churches, governed under the Congregational polity, to summon representatives of neighboring churches, similarly controlled and of like faith, to gather in friendly council to pass upon the qualifications for the ministry of candidates about to be installed in pastorates. This council, it is believed, will be unique in that it will bring together, perhaps for the first time in such a conference, representatives of churches nominally adhering to Trinitarian and Unitarian doctrines. The names of the churches that have been invited to send delegates have not been made public. The meeting of the council will be in the church and will be open to the public.

The new parish house will be dedicated at 5:30 o'clock Monday afternoon. Whelan B. Clark, chairman of the standing committee of All Souls' church will preside at the exercises.

At 5:30 p. m. Monday supper will be served to representatives of churches which participate in the council and members of the congregation.

The formal service of installation will take place at 7:30 p. m. Monday.

Don't Like One-Class Church

Rev. Henry Sloane Coffin, D.D., of New York will be the preacher at the service. He is minister of the Madison Avenue Presbyterian church in New York and professor of homiletics in Union Theological seminary.

It is said he does not believe in a one-class church and sees no necessity for maintaining dependent mission churches on the East Side of New York. With him everybody worships God on a common footing. For the better conduct of its work his church has recently built a fine story brick parish house which has the most up-to-date equipment for Sunday school, facilities for instruction in cooking and domestic science, gymnasium for boys and girls, a swimming pool, bowling alley and the roof is used in summer for evening services. The church has two summer camps, one on the Connecticut coast for girls and one on the New Jersey lakes for boys.

Dr. Coffin has been with him on his staff two associate ministers, a boys' worker, half a dozen women visitors and three student assistants from Union Theological seminary. During his course at the seminary Mr. McGiffert was for three years one of these student assistants, receiving his practical training under Dr. Coffin.

Among his writings are several books of sermons.

Dr. Coffin's name has been frequently mentioned in connection with the choice of a new president to succeed Dr. Hadley of Yale.

Classmate of New Pastor

Rev. A. Sidney Lovett, D.D., of Boston will deliver the invocation at the service. He was a classmate of Mr. McGiffert at Union Theological seminary and went from there to the Malory church in South Boston. He is now minister of the Mt. Vernon church in Boston.

Rev. Paul Revere Frothingham, D.D.,

of Boston, will deliver the charge to the people. Dr. Frothingham is minister of the Arlington Street church in Boston.

Rev. Arthur Custumaker, D.D., of New York will deliver the charge to the minister. He is the father of the new minister of All Souls'. He is perhaps the foremost church historian in America. He has written the following books: "The Apostles' Creed," "The Apostolic Age," "Protestant Thought From Luther to Kant," "The Rise of Modern Religious Ideas," and "Martin Luther—The Man and His Work."

He is now president of the Union Theological seminary located opposite Columbia university in New York city. Since the war union has attracted many men from across the water and offers fellowships to French, Swiss, English and Scotch students.

The prayer of installation will be delivered by Rev. Samuel A. Elliot, D.D., Rev. Arthur G. Lyon, of the Lawtucket church in to take part in the exercises. As is customary, the newly installed pastor will deliver an address.

The public is invited to attend all of the services.

DEATHS

MCNEMEN—James F. McMenimen died yesterday at his home, 20 Gates street, after a short illness. He leaves his wife, Mary J. (Chambers) McMenimen; four sons, Francis J., James, Leo J. and Paul B. McMenimen; and one daughter, Mary B. McMenimen.

GAINES—Alexander Gaines died yesterday at the Tewksbury state hospital, aged 32 years 2 months and 19 days. He is survived by his mother, Mrs. Alexander Gaines of this city. The body was removed to the rooms of Undertakers Amodeo Archambault & Sons.

MANNING—Miss Mary Manning, for many years a member of St. Patrick's parish, died last evening at her home, 232 Adams street. She is survived by two sisters, Miss Josephine Manning of Worcester, and two brothers, Thomas and John Manning, both of this city. Her body was taken to the home of Mrs. Mary Manning, 333 Broadway, by Undertakers James F. O'Donnell & Sons.

WHELAN—Mrs. Anna M. (Gallagher) Whelan, widow of William J. Whelan, for the past 35 years a resident of Collinsville, died last evening at St. John's hospital. Deceased was well and favorably known in Collinsville where she had been a constant attendant of St. Mary's church. She leaves two daughters, Mrs. George Fogarty and Mrs. Daniel A. Wholey, one brother, Daniel Donnelly, and two grandchildren.

The body was taken to the home of Mrs. Mary Manning, 333 Broadway, by Undertakers James F. O'Donnell & Sons.

KIDDER—Willis S. Kidder, a resident of Concord, N. H., and for almost 40 years a conductor on the B. & M. railroad, died suddenly Wednesday evening at his home, 60 Pillsbury street. For the past two years Mrs. Kidder has been in charge as conductor of the 175 train leaving Lowell for Boston. He was therefore well known to a large number of Lowell people who ride daily to Boston on that train. He had worked during the day for the station at Concord, where he was to receive his pay. He had completed his errand and had reached his home when he expired. He leaves his wife, Lena Kidder, the late Samuel S. Kidder, father of deceased, was an engineer on the B. & M. for many years.

ABERN—Died Thursday night in Tewksbury, Patrick Abern, aged 45 years. He leaves three sisters, Mrs. Thomas F. Griffin, of Lexington, Mrs. Stephen F. Tracy, of Taunton, Mrs. J. McMoran, of Framingham. The body was removed to the chapel of Undertakers James F. O'Donnell & Sons.

FUNERALS

BOLDRAS—The funeral of Anna Boudras took place yesterday afternoon from the home of her parents, Loderes and Mary Boudras, 11 Cottage street. Owing to the cause of death, the funeral was private. Burial took place in Westlawn cemetery, where services were held by Rev. Nicholas Jendras of the Holy Trinity Greek church. The funeral arrangements were in charge of Undertakers M. H. McDermott & Sons.

FERRY—The funeral services of Mrs. Augusta H. Ferry were held at her home, 115 NeSmith street, yesterday afternoon. Rev. Edward W. Hinks, D.D., of Cambridge officiating. The funeral was in the Lowell cemetery. The funeral arrangements were in charge of Undertaker George W. Healey.

RAYMOND—The funeral of Carl Edward Raymond took place yesterday afternoon from the home of his parents, Carl E. and Edna Raymond, in

Belham Centre, N. H. Rev. M. V. McAllister officiated at the home and also read the consolatory service at the grave. Funeral arrangements were in charge of Undertaker George M. Eastman.

RILEY—The funeral of Miss Elizabeth Riley took place yesterday afternoon from her home, 5 West Burdette street, and was largely attended. There were numerous flowers. The bearers were Frank McGonigley, James Stewart, Bernard Nelson, Joseph J. Scanlan, John Waldron and Edward Keough. Burial was in the family lot in St. Patrick's cemetery in charge of Undertakers G. H. McElroy & Sons.

TROUP—The funeral of Mrs. Helen Troup took place this morning at 9 o'clock from her home, 35 Albion street and was largely attended. The cortege left for St. Michael's church where, at 9 o'clock, a mass of requiem was sung by Rev. Thomas J. Heagney. The choir, under the direction of Mr. Thomas P. Boulger, rendered the Gregorian chant, "Memento." The mass being sustained by Miss Griffin and Mr. Boulger. Mrs. Ella Bell-Toye presiding at the organ. The church was well filled with parishioners and the deceased was well and favorably known, having lived her entire life within the confines of the parish. The bearers were Messrs. Harvey Keirstead, William Scanlon, Patrick J. Sullivan, John Doherty, O.M.I., ex-Thurston and Thomas Senior. There was a profusion of spiritual and floral offerings. The burial was in the family lot in St. Patrick's cemetery, where the committal prayer was read by Fr. Heagney. The funeral was under the direction of Undertakers James F. O'Donnell & Sons.

THOTTER—The funeral of Mrs. Victor Thotter took place this morning from her home, 25 Clinton street, at St. Joseph's church at 9 o'clock by Rev. Guillaume Ouellette, O.M.I. The choir, under the direction of Elizabeth Mahé, rendered the Gregorian chant, "Memento." The mass being sustained by Geo. and Alphonse Gagnon, Joseph Roy and Siméon Veilleux. Burial was in St. Joseph's cemetery, under the direction of Undertaker Alfred W. St. Lawrence.

FUNERAL NOTICES

MCNEMEN—Died January 27, James F. McMenimen. Funeral will take place on Saturday morning at 9 o'clock from his late home, 20 Gates street. Funeral high mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. The funeral arrangements will be in charge of Undertaker St. H. McDonough & Sons.

FUNERAL TODAY OF

MRS. BRIDGET STARR

The funeral of Mrs. Bridget Starr, mother of Rev. John J. Starr, will take place this morning at 9 o'clock from her late home, 45 Union street. Impressive services were held at St. Peter's church where, at 10 o'clock, a solemn high mass of requiem was sung. Seldom have so many priests attended a funeral in this city, almost the entire space within the sanctuary being occupied by local and out-of-town clergymen.

The solemn high mass was sung by Rev. Daniel J. Heffernan, assisted by Rev. Francis L. Shea, deacon, and Rev. Peter Linehan, sub-deacon. Rev. Conrad Quirbach of Newton Centre was master of ceremonies. Seated within the sanctuary were Rev. F. J. Scanlon of Boston, Rev. T. E. Marley of Haverhill, Rev. James F. Hamilton of Whitman, Rev. James Kerrigan of Somerville, Rev. Daniel J. Sullivan, O.M.I., of Lowell, Rev. J. T. McDermott, O.M.I., of Lowell, Rev. E. J. Fagan of Rockland, Rev. Joseph A. Curtin of Lowell, Rev. Stephen Murray of Lowell, Rev. W. A. Connor of Dorchester, Rev. J. H. Doherty, O.M.I., of Lowell, Rev. W. J. Conley of Waverly, Rev. Thomas P. Frawley of Brookline, Rev. James W. Somers of Lowell, Rev. M. P. Shaughnessy of Peabody, Rev. D. P. Sullivan of Roxbury, Rev. Charles Garrigan of Lowell, Rev. Jas. F. Cassidy of Brookline, Rev. William A. Dacey of Boston, Rev. David Murphy of North Billerica, Rev. D. J. Keher, Ph.D., of Lowell, Rev. James A. Supple, Ph.D., of Lowell, Rev. A. Hamilton of Abington, Rev. W. George Mullin of Manchester-by-the-Sea, Rev. John F. Burns of Boston, Rev. James F. Lynch of Lowell, Rev. J. Houston of Abington, Rev. Edward J. Keenan of Lowell. The choir sang the Gregorian mass, solos being sustained by Miss Mary Ryan and Miss Florence Hague. At the offertory Pio Jesu was sung by William Gookin. At the elevation Miss Frances Tighe sang O Meritum Pasionis. As the remains were being borne from the church the choir sang the Profundis, the solos being sustained by Mr. James E. Donnelly. Miss Gertrude Quigley presided at the organ. The bearers were Leo and Edward Fox, James Starr, John Riley, Arthur McQuade and Michael McGlinchey. Burial took place in the family lot in St. Patrick's cemetery where the committal prayers were read by Rev. Fr. Heffernan, assisted by Rev. Fr. Shea and Rev. Fr. Linehan. Undertakers M. H. McDonough & Sons had charge of the funeral arrangements.

SUN BREVITIES

Best printing, Tobin's, Associate bldg., Lyden for best catering. Tel. 4324. R. Girard Johnston, hats, Elite Shop. Fire and liability insurance. Daniel J. O'Brien, Wyman's Exchange.

For the past five months Miss Marion Brodie has been seriously ill in Burke, N. Y. Her Lowell friends will be glad to learn that she is now spending a few days at her home in Bridge street.

A dancing party held to obtain funds for a continuation of district nursing in Lowell, was largely attended last evening in Highland club hall. The Lowell Guild, Refreshments were served by the D. L. Page Company, and the orchestral music was provided by the Bert Lowe orchestra.

Mr. and Mrs. William Pelletier, who were recently married in Canada, are the guests of Mr. and Mrs. Joseph Tremblay and Mr. and Mrs. Francis Caroline of this city. Before returning to their home the couple will visit relatives in Nashua, N. H. and Lawrence.

Miss Clarinda Lovelle, of Winnipeg, Manitoba, who for the past three months has been the guest of her brother, Mr. Arthur G. Lovelle, of 122 St. Washington street, left for her home this morning.

FIND STILL AND RACK OF GUNS

N. Y. Police Make Discovery While Fighting Way Into Fifth Floor Room

NEW YORK, Jan. 25.—Fighting their way into a fifth floor tenement, found in City Hall place early today in quest of a kidnapped man, police discovered an elaborately equipped moonshine still, a rack of shotguns and many rounds of ammunition.

Informed by a laborer that his brother had been kidnapped and was being held for ransom in the tenement, police broke down the door and were attacked by three men. The three were subdued after a thirty minutes fight and arrested. The man who told the kidnapping story fled.

Gave Himself Up

Continued

By, who questioned the man further, found that his residence was in North Chelmsford, and that the people living next door were using electricity against him, and had been doing so for some time. He denied having been drinking. "I haven't had a drink since prohibition," he asserted, although he admitted having been "brought in a bit" prior to that time.

"I'm in bad health," he continued, "and have been to seven doctors. One of them gave me something to drink last October, and after I'd finished that I drank some cider my brother gave me. It burnt me up all over."

It was decided to hold him for safe-keeping. On his person were found two 50 cent pieces, and about seven dollars in money, a "D. D. pipe, and an assortment of pills. He stated that the pills were given to him by a doctor. "I take one once in a while when I feel like it," he said, but could not say for what ailment they had been prescribed. He said that he was single and thirty-nine years of age. Naturalization papers were found in his possession.

Investigation disclosed that the man's next door neighbor, whom he accuses of having assaulted him by means of electrical currents sent under the window sashes, has been in confinement for insanity. After the man had been placed in detention, arrangements were planned to have him examined as to his mental condition.

THE LOWELL IRON AND STEEL COMPANY

Barth, George, Frank and Philip Scannell, directors of the Scannell Boiler works, have announced the formation by themselves of a new concern known as the Lowell Iron and Steel Co. The offices and warehouses of the company have been located on Tanner street, Lowell, Mass. Mr. Scannell, formerly treasurer for Boutwell Bros., Inc., will be manager.

FIGHT OVER \$500,000 FRENCH ESTATE

MORRISTOWN, N. J., Jan. 25.—Mrs. Annie Bligh of Summit, called by the defense to dispute William French's claim that he is the son of the late James French, division of whose \$400,000 estate is being contested by his daughter, Mrs. Susan Calkins, testified today that he was a wife taken from a New York institution when a baby by Mrs. French. Mrs. Bligh said her mother, Mrs. John H. Cook, deceased, had accompanied Mrs. French to the institution and that the child was raised by the French family on a farm at Waterford, Sussex county.

She said the child's real father was a man named McDermott, and its mother a New York seamstress.

SEEK RELATIVES OF CIVIL WAR VETERAN

Relatives of Hugh Lovett, a Civil war veteran, will full help to a small estate, if they can be located, and it is believed that they are at present residing in or near Lowell. A letter to this effect has been received by Chief of Police Welch, from Mrs. Annie Stuart, of 111 Norway street, Boston. The communication reads: "I am extremely anxious to get in touch with the relatives of Hugh Lovett, who formerly lived in Lowell, and who was a veteran of the Civil war. I believe that he had relatives in or near Lowell, but I have been unable to learn their names. There is a small estate in which they would be interested and I would appreciate if you could assist me in any way in finding them. Thanking you for anything you may be able to do in this matter, I am Respectfully,

(MRS.) ANNIE STUART.

TO RUN FULL TIME

WARREN, O., Jan. 25.—The Trumull Steel Co., which has been operating on about a 50 per cent basis for several months, resumed full force operations at all of its 31 mills today. About 2500 idle men returned to work.

BOSTON THREATENED WITH WATER FAMINE

BOSTON, Jan. 25.—Warning that a water famine threatening Boston and cities and towns in the metropolitan district within the next five years, unless immediate steps are taken to increase supply resources, was given by Chief Engineer N. H. Goodenough of the state department of public health yesterday. He urged the construction of a reservoir to cost at least \$2,000,000 and to extend the Woburn basin in capacity in a report before the legislative committee on water supply.

"The population of the metropolitan district has doubled in the last 25 years," said Mr. Goodenough. "This growth shows no sign of diminishing. The increase in the use of water runs at about five million gallons a day and in two or three years the consumption will equal our total water resources."

REPORT ON WORK OF THE K. OF C. GUILD

The work of the K. of C. guild for the year 1921 was summarized in a report read by William H. Gallagher at the meeting of Lowell council, K. of C. last night. The report was submitted by the K. of C. chapter and treasurer, Rev. James E. Lynch and indicated that the work of the guild has spread out to such an extent that the expenditures have increased considerably. The work of the guild is to care for children who are neglected or who are brought before the local court as delinquents and the report told of the work in that line during the past year.

Eighty-one court cases to which the guild turned its attention were placed on probation and out of that number only 11 defendants have broken the terms of their parole. The report also mentioned the number of Christmas baskets given to needy families at Christmas time and work done for the benefit of the children at St. Peter's orphanage.

Appreciation expressed.

Hon. Thomas J. Bright, justice of the local court and the two associate justices, Hon. John J. Pickman and Hon. Frederic A. Fisher, were given an acknowledgment of thanks in the report as was also Miss Mary Gallagher, agent of the guild. Formal acknowledgment of the services of law-

ARDENT SINN FEINER MYSTERIOUSLY KILLED

BELFAST, Jan. 25.—Michael Garvey, an ardent Sinn Feiner, was mysteriously killed in bed yesterday.

The crime is believed to have been in revenge for the shooting of three policemen, who were to have been witnesses at a military inquiry. In the bedroom of a hotel near police headquarters Wednesday night.

PELHAM WOMEN FORM JOLLY CLUB

The Women's Jolly club of Pelham, N. H., is the name of the new organization recently formed by the French-speaking women of the town. The aim of the club is to encourage closer social relations between its members and incidentally to lend a helping hand to the needy ones of the town. Weekly meetings will be held for the purpose of sewing for those in need, while monthly socials will be conducted for the purpose of raising funds.

The first social gathering of the club took place last evening at the home of Mr. and Mrs. Benjamin Ramsey, former residents of Exeter street, this city, who since last September have been making their home in the New Hampshire town. The affair was attended by nearly 100 people and all spent a most enjoyable evening.

In the early part of the evening a brief informal reception was held and later, which was played, the winners being Mr. and Mrs. Joseph Garvey of Pelham. At the close of the card game a varied entertainment program was given, those participating being Mrs. Brunelle, Mrs. Harry Decelle, Mrs. J. Garvey, E. S. Desmarais, Alfred Ducharme and others. A buffet luncheon was served and general dancing was enjoyed.

The members of the club are as follows: Mrs. Elphège Landry, Mrs. Nelson Gaudin, Mrs. Henri Bergeron, Mrs. Joseph Garvey, Mrs. Charles Ducharme, Mrs. Frank Botsvert, Mrs. Joseph Paquette, Mrs. Arthur Morneau, Mrs. Eugene Ducharme, Mrs. Henri Foley and Mrs. Alfred Leblanc.

TO DECIDE IF MINISTER VIOLATED CANON

LOS ANGELES, Cal., Jan. 25.—The question of whether a canon of the Protestant Episcopal church had been violated in the marriage of Alfred I. Dupont, of Wilmington, Del., and Miss Jessie D. Hall, of Los Angeles, last Saturday, may not be decided for several weeks. Bishop Johnson of the diocese of Los Angeles said today.

He said he had taken no action in the matter, to which attention was called by the convention of the diocese in a resolution assuring him of its support in any steps he might see fit to take.

The Rev. Baker P. Lee, who performed the ceremony, said he was prepared to defend his action before an ecclesiastical tribunal. He declared he had made inquiries and had a sworn statement concerning the circumstances of Mr. Dupont's divorce, in the light of which he said he felt justified in performing the marriage.

A fish that can effect poison like a snake has been discovered in the South seas.

MOTHER NOW TELLS OF DAUGHTER'S RECOVERY

Miss St. Amand, Aged 15, of New Bedford, Gained Seventeen Pounds by Taking Tanlac—Was On Verge Of Complete Breakdown

"I certainly do feel thankful that my 15-year-old daughter is enjoying good health again," declared Mrs. Marie St. Amand, 201 Sawyer st., New Bedford, recently.

"Just think of it, Ora has taken only three bottles of Tanlac, but already she has gained 17 pounds in weight. She had been in poor health nearly two years and had lost 20 pounds in weight and in spite of everything we could do she was growing worse. Her appetite was so poor that she ate little of anything and looked weak and thin and couldn't get any rest either day or night. She was on the verge of a complete breakdown and at times it just made me cry to think we could not do a thing for her.

"A few weeks ago one of our friends advised us to try Tanlac and I will never forget the day Ora began taking it. It was just the thing she needed and I think it is wonderful how it has restored her to health in so short a time. She is as strong and well as ever, sleeps perfectly sound and to look at her it hardly seems that she is the same girl. I have nothing but praise for Tanlac and I recommend it with all my heart.

"Tanlac is sold in Lowell by Green's Drug Store, under the personal direction of a special Tanlac representative, by Wright Drug Co., Billerica, Mass., and by the leading druggist in every town.—Adv.

AMUSEMENT NOTES

By Theatres' Own Press Agents.

THE STRAND

Clara Kimball Young, who has not appeared on the local screen for some time, is making a pronounced hit in her latest film triumph, "For the Soul of Rafael," which is being presented for the last three days at The Strand. All of the exceptional talent of this star is reflected in her work in this picture. Then there is Lew Cody, "Occasionally Yours," a delightful comedy drama that has all of the amusing elements that will please. It has pretty girls, good humor and a good story.

ACADEMY

"Cabaret Capers" opened a three days' engagement at the Academy yesterday and played to large houses at the matinee and evening performances. This pretty little comedy, which portrays with realism the scenes and incidents of an up-to-date cabaret, affords an abundance of action and the force of comedians display their versatility in a most pleasing manner.

The trio of soloists, among the members of the girls' chorus, sing several catchy numbers and the ensemble dancing and singing form part of the excellent bill.

RIALTO THEATRE

If you don't plan on visiting the Rialto theatre either today or tomorrow, you will miss seeing one of the best picture programs on the present season. This program concludes its week's showing on Saturday. It is the picture of E. W. Hornung's famous novel, "The Broken Gate," which is a most interesting and educational comedy, "Out for the Night," and the Fox news. The burning of the passenger ship and the drowning of every soul on board but one is the outstanding feature of the feature picture. How that one outwits a bunch of plotters and wins a woman's love is rapidly characterized. Don't fail to see the week-end program.

RECOUNT IN DRACUT

At the request of Charles S. Little, who was defeated for the nomination of road commissioner by Robert C. Mills at the recent republican caucus of the town of Dracut, a recount of the vote will take place within a few days. A petition for a recount has been filed with Town Clerk Brown, who turned it over to Fred A. Bassett, chairman, and Alfred Fox, secretary of the republican town committee. The vote at the caucus was 127 to 124 in favor of Mr. Mills. At the recent democratic caucus the following officers were nominated: Nicholas Gallagher, assessor; Thomas F. Carlick, tree warden, and Frank Callahan, road commissioner. There will be no candidates for the other offices. Nelson E. Huntley and J. Chester Fox, who registered republicans, have signified their intention of being independent candidates for treasurer and selectman, respectively. The last registration session prior to the election will be held at Saturday at the town office, Centre village, from 12 to 10 p. m.

VOICE RESTORED TO LOWELL MAN

In Fifteen Minutes and Talking Naturally in Four Hours

"I wish to tell you about the wonderful results which I obtained from the use of Sister Mary's Compound. I contracted a cold which settled in my throat and affected the vocal cords so that it was impossible for me to speak above a light whisper. Within 15 minutes after taking the first dose of Sister Mary's Compound my voice began to strengthen and in less than four hours I could talk naturally and with perfect ease. This was the result of only four doses of your very wonderful remedy and I can earnestly and confidently recommend Sister Mary's Compound to those afflicted with throat troubles." John W. Delvedon, 55 Mt. Vernon st., Lowell.

Sister Mary's Compound will restore voice and relieve hoarseness, congestion and hard, dry cough in 24 hours or less. If your glass does not show at least twice before retiring.

No cod-liver oil, no alcohol or narcotics. Children do not have to be forced nor coaxed to take Sister Mary's Compound.

For coughs, colds, stomach, throat, lung and bowels; as a body builder and blood purifier Sister Mary's Compound has no equal. All Drug Stores.—Adv.

CHILD LADIES' NIGHT

Big Attendance at Party by Broadway Social and Athletic Club at the Casino

Over 500 persons attended the Ladies' night which was held at the Casino last evening under the auspices of the Broadway Social and Athletic club. The affair was one of the most successful events of the season and reflected great credit upon the committee in charge. In the early evening concert numbers were given by the orchestra and later general dancing was started and continued till a reasonable hour. The committee in charge consisted of the following: Timothy O'Sullivan, chairman; Patrick Owens, floor director; Richard O'Brien, assistant; Joseph Sheely, chief aid; Daniel Tiley, James Spillane, Bernard Callery, Peter Brady and John Ashe, aids.

AMERICAN LEGION

Billerica Post of American Legion held Dancing Party in Thomas Talbot Memorial Hall

Billerica post, 116, American Legion, conducted a successful dancing party in Thomas Talbot Memorial hall, North Billerica, Wednesday evening. There was a large attendance, the program was excellent and the receipts of the evening were very substantial. The officers in charge were as follows: General manager, Maxwell A. Blithe; assistant general manager, Louis Maloney; floor director, Charles L. Leach; chief aid, Daniel McSweeney; aids, Joseph O'Brien, Thomas G. Nicholson, Joseph Fairbrother, Edward Golan, Fred Ouellette and James Senter.

The ladies of the auxiliary, who assisted in making the affair a success, were Mrs. Blithe, Mrs. Timothy Maloney, Mrs. Archibald Blithe, Mrs. Edward Quinn, Mrs. Eugene McSweeney and Mrs. Thomas J. Callahan.

HOME RULERS DISLIKE JOBS

Sharp Criticism of Eastern Massachusetts at a Meeting in City Hall

Rev. N. W. Matthews Says the Road is Dead and Doesn't Know It

That the home rule committee is a farce; that its members are wasting time holding meetings; that it has no power to accomplish anything; that the public trustees, keep the inside workings of the road carefully hidden was freely charged at a meeting of the committee held in city hall yesterday afternoon. Several members expressed the opinion that they were heartily tired of their jobs and were disposed to forego the empty honor of holding them for a longer period. Rev. N. W. Matthews said he thought the Eastern Massachusetts street railway is dead and doesn't know it.

Chairman John E. Sullivan started setting off the fireworks of criticism when he asserted that during the year of its existence the home rule committee had not accomplished a single thing except put the jitneys out of business. He said that neither the company nor the road would ever get anywhere until a five-cent fare unit is established.

Many Had Grievances

There was not time for an encore for the chairman's remarks. The other members of the committee had too many grievances of their own to air.

Mr. Matthews attempted first to get his flashlight focused on the financial affairs of the road. He unearthed the information from District Manager Thomas R. Lee that during December the revenue from cash fares was \$45,262 and from tickets \$45,952, and that it cost more to operate the road last month than it did in December, 1919.

This statement started Secretary-Manager George F. Wells, of the chamber of commerce on the trail in search of more facts. He wanted to know why, with fewer cars running, fewer men employed, one-man cars in use operating expenses climbed.

"Higher wages," said Mr. Lee. Mr. Wells showed curiosity as to

depreciation charges.

Mr. Lee said that depreciation is charged up as operation expenses at the rate of about \$10,000 a month.

"Bonehead" Methods

Describing the way in which he said cars at North Chelmsford fail to make connections with the Ayer cars. Mr. Matthews said that he considered the company's methods a "bonehead" way of doing business.

Mr. Lee said he would "investigate."

Mr. Durfee sought information as to why there are fewer cars on the Andover street line, and was informed by Mr. Lee that there was hope that there might be more some time.

Mr. Wells, referring to the remark of the chairman that there should be a five-cent fare unit on the road, said that he had been sharply criticized several months ago for making a similar suggestion.

Mr. Moley said he believed it was impossible to run the road on a "five-cent fare basis."

Suggestions Turned Down

Mr. Hobson said that he had made suggestions for improvements that he thought would be for the benefit of the road, but that nothing had come from them.

"Why hasn't the committee forced the road to act on its recommendations?" asked Secretary Curtin. "It has been a 'mutter' time after time."

"We have no authority," said Mr. Durfee. "This is an advisory committee, but they are not allowed to advise. I don't think we are getting anything out of the time we are putting in here."

Mr. Hobson complained of the discourtesy of employees of the road.

Mr. Wells said he would like to see the fares fixed up so that everybody should pay the same fare and deposit it in a box.

The next meeting of the committee, the second Thursday in February, is to be held in Mr. Lee's office and the plant of the Lowell district will be inspected.

STRIKE IN BOSTON IMPEDES WORK HERE

Progress on the high school building to Kirk street is being impeded by the Boston strike of Bay State Structural Iron Workers against a 10 per cent reduction in wages declared by the contractors. Steel workers of the same concern engaged on the auditorium job are also on strike.

Both the high school and auditorium

jobs are being done through sub-contractors of Boston on steel and galvanneal iron work and all their men coming from Boston are on strike. At the high school, steamfitters and ventilation workers are also out, it is understood, and at present the only men working are those directly under General Contractor Daniel Walker of this city. The men have been out since last Wednesday and from information gathered this morning it is known that the strike is holding back work on the building to a considerable extent.

The method of structure at the high school necessitates simultaneous progress on steel, iron and other work while at the auditorium at the present time, though a few steel workers are out, other work continues. The contractors on both jobs, members of the Boston organization, now on strike and said to be holding back work in that city, were obliged to lay their work in this city at the same time.

It is understood that the workmen on strike were under contract to work until May 1 under certain wages, adjustment to be made according to rates to continue after that date. When a reduction of 10 per cent was announced last week the men considered it a violation and so went on strike.

HORIZON NOT TO QUIT

BALTIMORE, Jan. 28.—Charles "Rock" Herzig, second baseman, recently released unconditionally by the Chicago Nationals, does not expect to quit baseball, but he says he will not do business until the schedule meeting of the National league at New York next month.

It is said that Manager Bonjean of the Philadelphia Nationals is "sick" of Herzig, and that other major league clubs also are said to have been made him.

To Watch U. S. Visitors to Japan

TOKIO, Jan. 26.—The police, according to the Asahi Shinbun today, have decided to exercise greater surveillance over American visitors to Japan who "are highly engaged in investigating industrial and military conditions." The newspaper claims that the police confirm this statement.

Giant Dirigible R-34 Damaged

LONDON, Jan. 28.—Airship R-34 was damaged while making a landing on the Yorkshire coast, early today and for a time was unmanageable, drifting out to sea. Destroyers were sent out and there was some uneasiness over the plight of the giant dirigible, which in July, 1919, made a voyage to America from England. After a few hours, however, it was announced that the airship was only partially disabled and was returning to her base. None of her crew was injured.

Village Without Police Protection

NEW BRUNSWICK, Ga., Jan. 28.—The only man in Oak Tree authorized to make arrests was in jail today and the village had no police protection. A negro arrested for recent robberies said his accomplice was the constable, Herman Beringer. A detective from New Brunswick arrested Beringer.

\$6000 Reward For Recovery of Jewelry

CLEVELAND, Jan. 28.—A reward of \$6000 has been offered for the recovery of jewels valued at \$50,000 belonging to John L. Severance, which disappeared last Saturday night. Announcement of the reward appeared in newspaper advertisements today. A handbag which contained the jewels was found empty in a yard here yesterday, leading to the belief that they had been stolen.

ADVENTURES OF THE TWINS

by Olive Roberts Barton.

"THE ICEBERG PALACE"

At last the twins were about to escape from the undersea palace of the wicked Jinn. With the aid of their friends, the lobster, the crab and the sea cucumber, they had found their way out of the palace and were now on the beach. Nick was looking at his wonderful

THE ICEBERG BENEATH HAD TURRETS AND TOWERS AND CHIMNEYS AND WINDOWS EXACTLY LIKE A CASTLE

map which showed him the road to the South pole, when suddenly the lobster cried, "There comes the Jinn for his supper and I haven't it ready. I didn't know it was so late."

Yes, it was getting dark and the Jinn was sliding down from his ice palace in the north on the northern lights.

"Oh," cried Nancy, "what shall we do now, Nick? He'll take us prisoners again."

But something happened. Sam Swift, the bird messenger, knew where the children were and told the Fairy Queen. What did she do but cause a volcano to appear at that very moment. Up it boiled from the bottom

they had wished themselves far away in their magic shoes.

An iceberg had broken away from its moorings in the Arctic sea and was floating slowly southward. As the twins were whizzing through the air above it, Nancy's sharp little eyes spied something, in fact, two something on the moving mass.

"Nickie, let's wish ourselves down on the iceberg!" she said. "It looks very interesting."

"All right," agreed Nick, who had noticed something himself. He had seen that the iceberg beneath had turrets and towers and chimneys and windows exactly like a castle.

TELLS OF 2 MONTHS STAY IN "FORBIDDEN LAND"

CALCUTTA, Jan. 28.—The first European who has had an audience of the Dalai Lama of Tibet at Lhasa since Manning in 1811 has just returned here after two months' residence in the "Forbidden Land."

He is J. Fairley, a telegraph engineer in the service of the government of India, who reports that the Tibetan government is apparently anxious for the country to be linked up by telegraph with India, and there are also faint signs, he thinks, of a desire for industrial advance on European lines.

Back to Middle Ages
"A visit to Lhasa," he says, "transports one straight back to the middle ages. There is no sanitation or drainage in Lhasa today and if it were not for its low temperature, owing to the fact that it is built on a plateau 11,000 feet high, its 20,000 inhabitants would quickly die of typhoid fever."

"The audience of the Dalai Lama took place in the Norbulinga palace three miles outside the city. The reception hall was gorgeously decorated in red and gold, with a magnificent silk canopy over the throne on which the Lama was seated in European fashion. His Holiness wore an oriental yellow-brown robe, and his hair was done in the familiar platted fashion of the Lamas. His salutation took the form of placing over my arms extended in front of me a long silk shawl, which, courtesy I returned by placing a silk shawl over the arm of His Holiness."

"The Dalai Lama's first question concerned my age, and the second my wife's age, and he showed great interest in my experiences on my journey. His Holiness gave me the same impression of gentle kindness which I derived from all my contact with the Tibetans."

Mr. Fairley also visited the Council of Shapies, as the Tibetan cabinet is called.

Asked if War Was Over
"The Shapies," he says, "inquired anxiously if the war were now over and Europe at peace again. Afterward, they invited me to a 24-course lunch. The only mishap was that my interpreter was so overcome with nervousness that he spilled the tea in the lap of one of the Shapies as he poured it."

Mr. Fairley also visited the Jo Kung, the Buddhist cathedral, where he found a bell left behind by the Capuchin fathers in 1745 when they abandoned their attempt to found a mission in Lhasa.

"In front of the main altar," Mr. Fairley says, "stands 27 butter lamps of solid gold, 10 inches high. The figure of the Buddha is finely gilded and ornamented with gold and turquoise. In a corner close to the door there is a large butter lamp of solid silver, about two feet in diameter and three feet in height. This lamp is literally plastered to the wall by the fifth left by millions of pilgrims, who have been in the habit for centuries of touching it in the course of their devotions."

THE SUNNY SIDE OF THE STREET

BY DR. WILLIAM E. BARTON

There is an old Dane who comes now and then to sharpen the knives and scissars of our household. One day I wanted him to sharpen my scissors, and seeing him on the other side of the street, I hailed him. To my surprise he refused to come over, saying that he must go on, but he would be back in the afternoon.

Later in the day he explained to me his philosophy. The sun, he said, is the source of life; all living things require it, man as much as the flowers or trees. Therefore, he made it his rule, except in excessively hot weather, to go up the east side of the street in the morning and down the west side in the afternoon.

I had a hard time getting rid of him, for he wanted to talk. He had some books in his box, and some written pages out of which he was proposing to make a book of his own. He had some curious notions, and some very sane insights. But after he had gone, I thought that one cannot in his philosophy I should like to put out to others.

Every street in life has two sides.

GET the Briggs' HABIT and colds or coughs won't bother you.

HUNT FOR ARMY AND NAVY CHAMPS

TEX O'ROURKE (N.E.A. Staff Special)
NEW YORK, Jan. 28.—(Ital army and navy champs.)

More than 60 yrs. ago an English chemist began to manufacture BEECHAM'S PILLS. Today they have the largest sale of any medicine in the world!

Beecham's Pills

The National Boxing association is hunting 'em.

Secretary Tex O'Rourke of the newly organized body plans a series of elimination bouts in army and navy camps all over the country.

Failure of doughboy and middy boxers to stand up against their British cousins was a disappointment to military officials.

In bouts recently held here the Brits proved superior to the Americans. Tex believes that their failure was due to hurried selections and that they were not in their best.

Following a set of elimination bouts the winners will go to England and try to win back lost laurels.

Tex is also seeking boxing champions of the major industries. He's arranging elimination bouts and a final round-up tourney for boxers among lumber camps, steel mills, shipbuilding yards and other industries.

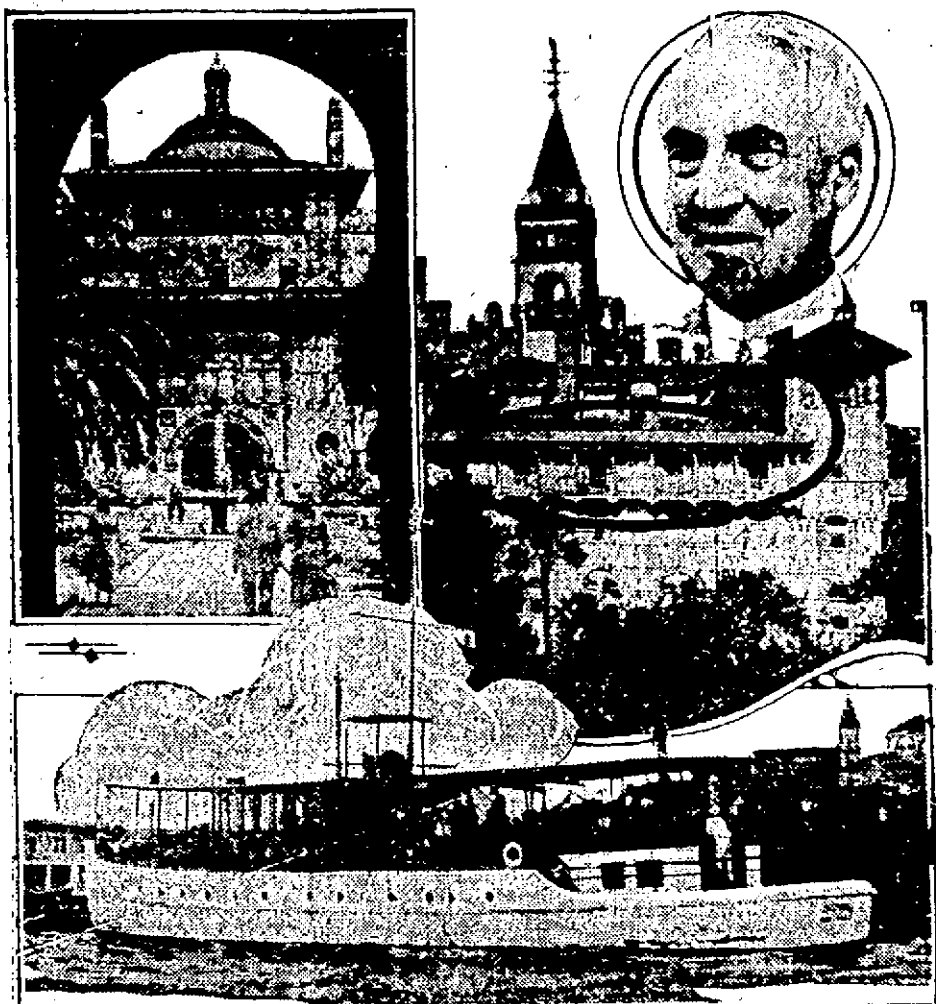

"These rough fellows show more real white-hearted fighting than most professionals," says Tex.

The National Boxing association, which now embraces 17 states, will attempt to line up all states where boxing laws exist, according to Tex.

Says Pile Remedy Worth \$100 a Box

"I have had itching piles ever since my earliest recollection. I am 53 years old and have suffered terribly. I have tried many remedies and doctors, but no cure. About eight or nine years ago I saw your ad for Peterson's Ointment. The next application stopped all itching, and in three days all soreness. I am cured. You have my grateful, heartfelt thanks, and may everyone that has this trouble see this and give your ointment, that is worth a hundred dollars or more a box, a trial. Sincerely yours, A. Newth, Columbus, Ohio."

Peterson's Ointment for Piles, Eczema and all Sores is only 25 cents a box. Box at all druggists. Mail orders filled by Peterson's Ointment Co., Inc., Buffalo, N. Y.—Adv.

WHERE HARDING IS SPENDING VACATION

These scenes show where President-elect Harding is spending his pre-inaugural vacation. On the left is the entrance to the Ponce de Leon hotel, at St. Augustine, Fla. The "Harding wing" of the hotel is shown on the right, the arrow pointing indicating Harding's suite with balcony overlooking a beautiful garden. Below is the luxurious yacht 'Victoria', owned by Senator Frelinghuysen and named for the senator's eldest daughter. It is 88 feet long and has two 50 h. p. engines and a wireless tower. Harding is expected to cruise until early February and then return to the Ponce de Leon for most of that month.

TO FADE AWAY

LIKE OLD BRASS RAIL

WASHINGTON, Jan. 28.—Put out of business by prohibition, the house alcoholic liquor traffic committee which haven't met for more than a year is preparing to fade away like the old

brass rail. Members are ready to ask for their release, agreeing with Chairman Volstead, of the judiciary committee, that the Volstead enforcement act has teeth enough to handle any liquor problem that may arise.

By washing coal to keep out impurities a saving of 5.8 per cent over the old method of picking has been effected.

RUNAWAY HORSE KILLS WOMAN OF 72

BOSTON, Jan. 28.—Mrs. Emma Elizabeth Draper Tate, 72 years old, of 1721 Centre street, West Roxbury, was killed, three others were slightly injured and more than a score of pedestrians were nearly trampled under the feet of a runaway horse yesterday in front of the Old South church. Mrs. Tate died at the relief station shortly after the accident.

Frightened from an unknown cause a horse attached to a newspaper delivery wagon darted from Harvard place directly opposite the church and stopped his mad dash by landing against the door of the church, 100 yards distant.

Washington street was jammed with pedestrian traffic at the time and everyone pushed and shoved in their panic to escape being run over by the horse. All but four were successful and these were struck by both the horse and the light delivery wagon.

Mrs. Tate sustained a punctured lung, fractured ribs; Mrs. Victoria Purvis, 32 years old, of 675 Broadway, Maplewood, scalp wounds and minor abrasions; Mrs. J. N. Carver, 32 years old, of 177 Dorchester avenue, Dorchester, contusions and abrasions of the head, and a lacerated eyelid; and Carl Nordgren, 10 years old, of 29 Ashland street, Dorchester, scalp wounds and general shaking up.

Stopped by colliding with the church door, the terrified horse was immediately caught by several pedestrians and backed into the alleyway where his mad dash started. The injured were carried inside the church and taken to the Haymarket Square Relief Station for treatment.

Mrs. Tate was the last of the famous Draper family of revolutionary fame and was the daughter of Captain William Draper, commander of the 2d Company of Roxbury Minute Men at Lexington, who was later killed in action in Thetford.

MEMORIAL FOR UNIDENTIFIED HERO

Many members of the Lowell post, 87, American Legion, are of the opinion that America should follow the example set by France and England in choosing at random the body of an unidentified American hero and burying it in a special place and erecting a suitable memorial over it, in tribute to the nameless heroes who gave up their lives on the battlefields during the world war.

With a view to creating sentiment favorable to such a proposition a set of resolutions will be read at the next regular meeting of the American Legion post for action by the body to be forwarded to national headquarters of the organization. It is thought that these resolutions drawn up by the American Legion posts throughout the country will gradually lead to the fulfillment of the idea.

In England, the unknown soldier and sailor dead were honored by the interment of a body at Westminster Abbey on Armistice day last November. In

Lack of rich red blood makes you

Weak
Anaemic
Nervous and
Run-down

—and keeps you so

WINCARNIS

In almost every case of weakness, impoverished blood, nervousness and run-down vitality there is a real shortage in the body of several mineral elements such as Iron, Calcium, Potassium, Sodium and Phosphorus. All of these are contained in Wincarnis. So by taking Wincarnis when you are weak, anaemic, nervous or run-down, you restore to the body the very mineral elements that help to make the blood rich as well as red. Try Wincarnis for yourself. The results will surprise you.

France the body of an unidentified French soldier was buried beneath the Arc de Triomphe in Paris with very elaborate and impressive military service.

The resolutions to be read at the meeting are as follows: "Since it is inevitable under usual conditions of warfare that many bodies of our soldiers cannot be identified and were buried in nameless graves overseas, even though some of them may have parents or families in this country, and it is known that there were hundreds and hundreds of such cases, and since England and France have buried unidentified heroes with impressive ceremonies and elaborate memorials are now erected over those bodies in

honor of the great number of unknown dead.

"It is resolved hereby, that Lowell Post 87, American Legion, department of Massachusetts, hereby favors similar action by the United States, and that an unidentified body be buried either beneath some suitable memorial already erected, with proper ceremony or that such a body be buried and a suitable new memorial be erected over it, and

by today disclosed the fact that Mrs. Helen Hartley Jenking will be the donor of a large sum of money probably in the millions, to form a foundation for general welfare work in Connecticut.

"It is also resolved hereby, that a copy of these resolutions be sent to national headquarters of the American Legion, with a view of creating a sentiment in favor of the return to the United States of the body of one of our unknown American soldier dead."

DE VALERA SOON TO LEAVE FRANCE

Will Be Back In Ireland Within 24 Hours, Says O'Ceallaigh

No Effort Made By Irish Leader White in France to See Lloyd George

PARIS, Jan. 28.—(By Associated Press) Eamon de Valera, who has been making a brief visit to France, will be back in Ireland within 24 hours, it was declared here today by Sean O'Ceallaigh, who is representative in France of the Irish republican movement. He said De Valera was expected to arrive in Dublin today or at the latest tomorrow afternoon.

No effort had been made by De Valera while he was in France, to see Premier Lloyd George, now in Paris attending the supreme council sessions, declared O'Ceallaigh, nor had any attempt been made to bring the Irish question before the supreme council. He thought this question would not come up before the council.

O'Ceallaigh would not discuss the momentary whereabouts of De Valera or his mission in France, but said the Irish leader had been in Paris and in several other cities during his visit to this country.

It was stated by O'Ceallaigh that letters addressed to De Valera were reaching him through the roundabout route formerly used and that they were being answered through the same channel.

O'Ceallaigh still in United States
NEW YORK, Jan. 28.—The American committee for relief in Ireland announced today that Donald O'Ceallaigh, lord mayor of Cork, would appear tomorrow at an Irish meeting in this city. The committee denied he had slipped quietly out of this country for Ireland.

Says De Valera in Dublin
DUBLIN, Jan. 28.—It was declared here today, on what was represented as the highest authority, that Eamon de Valera was still in Dublin and that reports of his visit to France were erroneous, probably designed to conceal his real whereabouts.

IN POLICE COURT
Man Sent to House of Correction At Own Request—Joseph Mattieu Found Not Guilty
Levi Parks, charged with vagrancy since Jan. 1, pleaded guilty today in the police court, and was sent to the house of correction for three months at his own request. Parks is a man past middle age.

Joseph Mattieu, charged with breaking and entering, was discharged today in the police court, having proved a complete alibi. Another man, arrested for the theft of \$245, implicated Mattieu, but evidence presented showed clearly that Mattieu had nothing to do with the crime.

AMERICANISM CONGRESS

Eli B. Hart Will Represent Local Post of the American Legion

Eli B. Hart, executive secretary of the Lowell post of the American Legion has been appointed by James J. Powers, post commander, as the representative of that organization to attend the first American congress to be held in the Augustus P. Gardiner Auditorium, state house, Boston, tomorrow, under the auspices of the department of Massachusetts American Legion. The meeting is for the purpose of instructing all persons interested in the work of Americanization, just what has been done and what can be done along those lines.

The congress will open in the morning at 10 o'clock with James T. Dugane, state commander of the Legion in the chair, and there will be four subjects discussed: "The Status of Immigrant Education in Massachusetts Today" will be considered by John J. Mahoney, director of Americanization, state department of education, formerly principal of the Normal school in this city.

The afternoon session will be from 2:30 until 4:30 o'clock with seven speakers scheduled. At the close of each address an opportunity will be given for the questions and discussion. The congress is open to the public.

Mr. Hart is particularly fitted to represent the local post at the congress because of his work in naturalization of service men during the past several months. He has secured naturalization for 300 men, mostly ex-service men, since American Legion headquarters were opened in Dutton street and in other matters of Americanization carried on by the local post he has been in charge. Any service men desirous of getting naturalization papers should get in touch with Mr. Hart.

URGES BETTER PAY FOR PROHIBITION AGENTS

WASHINGTON, Jan. 28.—The mortality among prohibition agents is higher than that of the world war, Wayne B. Wheeler, Anti-Saloon league counsel, declared today before a senate appropriations committee in urging better pay for them.

He said their work was being made more dangerous "by the wet propaganda now in circulation to encourage law breakers."

"Fewer than one-half of one per cent. of the men under arms in the last war lost their lives," he said. "A larger percentage of the men who do the field work in gathering this evidence have been killed."

"When an organized attack is made against the enforcement of law, neither money nor effort should be spared to uphold the law."

Five different kinds of ice have been produced, four of them heavier than water. The "stovepipe hat" style for men began in 1815 in France.

DANIELS GETS PROTEST ON SIMS' REMARKS

WASHINGTON, Jan. 28.—Protests against Admiral William S. Sims' recent remarks at Boston, touching on the Irish situation, were received today by Secretary Daniels.

One asked why the officer "should not be court-martialed for participating as a British propagandist" at the Boston meeting. It was signed by Thomas A. Nihard, of East Boston, while the second protest bore the name of Matthew Cummings as president of the Greater Boston council of the Friends of Irish Freedom.

Mr. Cummings said that as Admiral Sims had spoken as an "admiral of the American navy" and as "his statements are based entirely on prejudice and not on facts," and "slander of the Irish," the secretary was requested to "compel him to make a public retraction and force him to apologize to the Irish people" if he could not substantiate his statements.

Mr. Daniels did not indicate what action he would take, if any.

FORD COMPANY TO RESUME OPERATIONS

DETROIT, Jan. 28.—Partial resumption of operations by the Ford Motor Co., Jan. 31, was announced today. At the Highland Park plant 25 per cent. of the force will return to work while full operations will be resumed in the tractor plant at River Rouge. A number of foremen and others returned today to prepare for the resumption Monday.

No announcement was made as to when the force at the Highland Park plant would be further increased. The plant has been closed since Dec. 21, upwards of 50,000 men being idle.

A miniature motorcycle, weighing only 32 pounds, is the latest product of Germany.

Resinol a healing household ointment

The same soothing, healing properties that make Resinol Ointment so effective for eczema and many other skin eruptions also make it an ideal household remedy for:

Burns Wounds Chafings
Cuts Sores Rashes
and a score of other troubles which frequently arise in every home. This is why you should keep Resinol Ointment ready for instant use.

Sold by all druggists, prescribed by doctors.

Retraction and Apology

To the Buying Public:

On various dates subsequent to December 27th, 1920, there appeared in newspapers located in cities where the Newark Shoe Stores Co. does business, advertisements announcing fire sales based upon fires which occurred in Wilmington, Delaware, and Baltimore, Maryland.

The facts upon which this copy was based were not called to the attention of the undersigned until Thursday, January 13th, 1921, when the matter was called to my attention by the Associated Advertising Clubs of the World.

The biggest asset of the Newark Shoe Stores Co. is the confidence of the buying public which it has gained and held through the years, and under no circumstances will we knowingly permit that confidence to be destroyed or in any respect impaired. It has been our practice to deal fairly with the public, and we propose that that practice shall continue.

While it is true that fires occurred in both our Baltimore and Wilmington stores, neither the fires nor the size of the stocks involved would warrant this company in conducting fire sales in all of its stores, as the entire stock in these two stores, if distributed proportionately among all of our stores, would be entirely too insignificant to give any sale the title of a fire sale.

The buying public who purchased goods at these sales received Newark Quality at Newark Prices. Though we feel that perhaps the public has suffered no financial loss, nevertheless, in line with our policy of never deceiving the public or inducing them to buy on any catch phrase, we offer without restriction to refund the purchase price to any of our customers who are in any way dissatisfied with their purchase made at that sale.

The fire sales have, of course, been discontinued, and we desire again to emphasize the fact that we think more of our reputation with the buying public than we do of money they leave on our counters.

We welcome any suggestion that would aid us in safeguarding the public who deal with us.

We believe in fair competition, in truthful advertising, and above all we believe in square dealing with our public.

We appreciate keenly the action of the Associated Advertising Clubs in bringing this matter to our attention as we also appreciate the action of any individual anywhere at any time bringing to our attention anything which will aid and assist us in further protecting what, as I have said before, is our biggest asset—the confidence of the buying public, which in plain English means what the public thinks of us. We are very jealous of our reputation and will go to any extreme to protect it.

MORTON SAMUELS, President
Newark Shoe Stores Co.

TRADE TOUR OF MEXICO

Plans Complete for Proposed
Tip By Group of Mass.
Manufacturers

Plans are complete for the proposed trade tour of Mexico by a group of Massachusetts manufacturers under the auspices of the Associated Industries of Massachusetts. It is hoped to secure a sufficiently large group for at least one special train of five Pullman cars, a dining car and a combination club car, which will leave Boston on Saturday, March 12, and return on Monday, April 4. While the tour is primarily for Massachusetts manufacturers, representatives of industrial concerns in the other New England states will be welcome.

Weaning time

Palatable and easily digested, the best baby food for weaning time is

Borden's EAGLE BRAND Condensed Milk

entertainment of the visitors in Mexico City, Tampico, Monterey and San Luis Potosi. Hon. Salvador E. Portillo, the consul de Mexico in Boston, will accompany the party by permission of his government, and two English speaking representatives of the Mexican government will meet the party at Laredo, Tex., and remain with it, acting as interpreters during its stay in Mexico.

The purpose of the proposed tour is to give Massachusetts manufacturers an opportunity, under the most favorable conditions, to study the possibilities of extending their markets in Mexico; to establish more friendly relations between the officials, merchants and people of Mexico and the industrialists of Massachusetts; to try to make the Mexican people understand that the manufacturers of Massachusetts are not ultra-conservative, but are ready to serve their needs upon a fair basis, and to show them that the industrial section of Massachusetts will be welcome.

That Sore Throat Needs Begy's Mustarine

When your throat is sore, it's a sure sign you need Begy's Mustarine. That is, if you want to get rid of it in the quickest possible time. It's really marvelous how this real yellow mustard plaster will ease and soothe throat, tonsillitis, chest colds, pleurisy and bronchitis. It's no exaggeration to say that it often conquers them over night, and it's just as speedy a remedy for neuralgia, lumbago, stiff neck, aching feet, sore muscles and swollen joints. Rub it on freely. It cannot blister, but it surely will ease the pains of rheumatism and gout, and you won't have to wait till to-morrow for relief. You'll get it today—often in an hour. 30 or 60 cents buys a yellow box full of Begy's Mustarine and one small box will do the work 50 blistering mustard plasters, sold by Fred Leonard.

manufactured at least 75 per cent of the commodities of which Mexico stands in need.

Authorities agree that there never were such opportunities for trade between the United States and Mexico as there are today, and that they are constantly increasing. A representative of a concern affiliated with the Associated Industries of Massachusetts, who spent four years in Mexico and has only recently returned, says there are hundreds of millions of potential contracts in Tampico alone for products of which more than 75 per cent are manufactured in Massachusetts and other parts of New England. The National City Bank of New York says: "The opportunities for American trade with Mexico today are greater and more profitable than they have been in many years, if ever before," also.

FOR LUMBAGO

Try Musterole. See How Quickly It Relieves

You just rub Musterole in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment, made with oil of mustard. Use it instead of mustard plaster. Will not blister. Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest. Always dependable.

35c and 60c jars; hospital size \$3.

that Mexico is now a safe place for Americans to travel in and do business, and that the losses incidental to doing business with Mexicans, under present banking arrangements, are no greater than those attending similar business done between concerns in the United States.

The industries of the middle, far west and southwest have sent delegations to Mexico, where they were royally entertained by the government and by private citizens, and they are now reaping the benefit in trade advantages. It is the hope of the Massachusetts manufacturers who are promoting this proposed tour of Mexico that they can offset those advantages by dispelling some of the ideas now current in that country about the difficulty of doing business with manufacturers in this section, and by showing them that it is decidedly to

their advantage to do business with an industrial centre which in many respects has no peer in the world.

HOLDS MASTER KEY

Warwick's "Yes" Opens Treasury; "No" Closes It

(INELA STAR Special)
WASHINGTON, Jan. 28.—"Not-or-maybe" "Yes."
And that settled it.
When Walter Winter Warwick, comptroller of the United States treasury, decides it's within the law to let loose some of Uncle Sam's money, he turns the key to the nation's strongbox.

But when he decides it isn't lawful—even the president can't dispute him. A man with a bill against the government, which the comptroller has refused to pay, has only one recourse—to carry his case into the court of claims and obtain a verdict.
Even then, to collect he must induce passage of a special act of congress.

Recently an appeal was carried over Warwick's head to President Wilson. It concerned the railroads and money they ask to pay the back wages and to purchase equipment.
Warwick has refused to "open up" because the amount claimed was not accurately ascertained and hence was not within the law.
President Wilson, pigeon-holed the appeal. He couldn't do anything else.
The office of the comptroller was established in 1789. Six auditors assist him. And there are 82 lawyers, clerks, accountants and stenographers in Warwick's office.
The only time comptroller Warwick leaves himself by turning the "master key" is when he collects his \$6000 a year.
TERRIBLE PULLING FATAL
PORTLAND—The extraction of 25 teeth from the jaw of an unresisting man, given by the cause of the death of James Dowd, deputy county clerk here.

"SALT HORSE" NOT ON SAILORS' MENU

SYDNEY, Australia, Jan. 28.—The changes which have taken place in the demands of seamen as compared to the times when "salt horse" was the chief food in the forecabin, are shown by a new set of requests just filed by the Federated Seamen's union. They ask that their menu should include canned fruits, condensed milk, Worcestershire and tomato sauces, rolls and scones, bacon

and eggs, boiled eggs, steak and onions, soups, Irish stew, roast beef, mutton, veal, assorted salads, cakes, plum pudding with sauce, custards and jellies. "Salt horse" was not on the list. Unsanitary utensils and clean tablecloths three times a week are insisted upon.

FRESH MILK ASSURED
TACOMA—Avel Johnson, owner of a fleet of 30 vessels, wanted fresh milk on a contemplated trip around the world for himself and family. Two pure-bred Hereford cows, installed on the aft portion of the deck with a vat, was the result.

DECISION MADE AFTER LAST FIERCE ATTACK

Mother of Three Had Continually Refused Friends' Good Advice

Final Sufferings Lead to Taking Toxo Treatment

"Although I am only 20 years of age, I have been caring for my mother for a long time. You see, mother was sort of an invalid. That is, she believed she would never be cured. Many a sleepless night she spent due to her stomach trouble. For days at a time I'd have to tie her head up with a cold cloth, or use an ice bag.
Besides, she was nervous and very weak, and troubled with bilious attacks. We'd been trying an old family remedy that she insisted was good, but it didn't seem to get bowel movements. Finally, I thought of my friend Mabel's mother who had been ill for a few days and was now more lively than ever.
So very soon after, I made a special visit to Mabel's house. I hesitated to talk of mother's ailments, but good

fortune was with me. It seems Mabel's father had stayed home that day with a cold. She has a wonderful appetite, and she's been eating a lot of poor food in a restaurant. I saw Mabel giving him something to take and asked what it was.

Well, I sure heard good news! Mabel told me its name was Toxo, and it was a treatment for constipation. From the label she read how it did not force the bowels to act, but allowed free and smooth to do so. Also how it helped indigestion by moving all waste matter in the bowels. Mabel told me how her mother had been helped by this Toxo treatment for her constipation. Oh, what wonderful news for me!
I finally broke away and almost ran to Dewey Drug Store and procured a package of Toxo. Mother was almost willing to die, she had been so miserable when I continued to give her the Toxo treatment.
You ought to see my mother today. Why, she is as happy and as healthy as anyone. She has a wonderful appetite, her headaches never bother her, her nervousness has disappeared and she has become an enthusiastic Toxo booster. Toxo, the wonderful treatment, has a place all its own in my family's heart for the good it did my mother.
You can get a package of Toxo, the treatment for constipation and indigestion, at Dewey Drug Stores on Merrimack street today. Keep it in the house always.—Adv.

MAN BURNED TO DEATH

Five Persons, Including Two Babies, Injured In Boarding House Fire

CHICAGO, Jan. 28.—A bed-ridden man was burned to death, five persons were injured, including two babies, who were dropped from a third story window, and a dozen others were rescued early today when fire struck a boarding house in the North Side residential quarter.

Albin Bryant, a nephew of the owner of the house, was too weak from illness to escape.

Alex Mayer, his wife and two babies appeared at a third story window. Smoke whirled around them and the parents held the children at arms length from the sill to give them air.

A burning timber from the roof struck Mayer on the head and he collapsed over the sill, the child falling from his arms. The other child, dropped to neighbors below when Mrs. Mayer was unable to sustain her burden, slipped through waiting hands to the pavement. The parents were rescued by firemen, who erected ladders.

LOWELL HIGH SCHOOL PLANS TRACK MEET

On Tuesday afternoon, Feb. 22, Washington's birthday, at 2 o'clock, the high school will stage an inter-class track meet in the high school annex drill shed. The meet will be under the direction of James Conway, athletics director for the school.

This will be the second annual inter-class meet and will be fully as exciting as a similar meet held on Washington's birthday last year. The members of the teams of the winning class will be awarded their class numerals as prizes. The members of the varsity track team, who compete in inter-school meets will be ineligible, and thus it will tend to bring out more material for track events, the real purpose for which the meet is planned.

In connection with the meet, a special relay race will be staged for boys of the grammar schools of the city, in which the relay teams from each grammar school may be entered. The members of the winning relay teams will be awarded suitable prizes.

Last year's inter-class meet proved such a success that it was thought advisable to make the event an annual feature. On the Friday preceding the day of the meet, tryouts for the inter-class contests will be held in the annex. At that time, men to represent the four classes of the school will be chosen. A large number of inter-class candidates is expected to turn out.

LOCAL MERCHANTS OBJECT TO AUCTION

Lowell merchants are making strenuous complaints and protests to the police and the chamber of commerce relative to an auction sale of groceries, flour, sugar, canned fruits, canned vegetables, dry fruits and other household articles, including various pieces of clothing, opened up in this city Thursday afternoon.

The basis of their complaints is that the auction is to be held for only a few days to catch up the cream of the Lowell trade and is not intended for a permanent stand. Another argument in the complaints by many of the merchants is that several of the chamber of commerce have been ordered out of the building in which the auction is being held, because of certain renovations and remodeling to be done by the building owner. Because the building is to be completely renovated, the merchants claim that is prima facie evidence that the auction does not intend to make a permanent stand and so should be classed as a transient merchant.

CHECKS FOR RETAINER PAY UNCLAIMED

WASHINGTON, Jan. 28.—More than 60,000 checks on the treasury for retainer pay due naval reservists are unclaimed at the navy department because of the failure of the reservists to keep the department informed of their correct address. It was announced today. Numerous complaints have reached the department from men at leaving failure to receive retainer pay, and in most cases the failure was due to an incorrect address at the department.

All of the checks now unclaimed were mailed to the last address received at the department and were returned by the postal authorities.

ARE ORGANIZING WOMEN'S TRUST CO.

PHILADELPHIA, Jan. 28.—What is said to be the first title insurance company in the United States, organized and conducted by women is now in progress of formation in this city. It will be known as the "Women's Trust Co." Application will be made to Governor Sproul for a charter.

The applicants are Julia M. Taylor, Bessie M. Snowver, L. Edna Hawmen, Lila Burt Cummings and Katherine Garfield Emmer. Their attorney is Cecelia P. Rags.

Miss Snowver is a dean at the University of Pennsylvania.

INTERCOLONIAL FLEET

PLANNED BY BRITAIN

LONDON, Jan. 28.—The Times today announces a plan for the creation of an intercolonial fleet, which is described as "a step toward a West Indian federation for commercial purposes and which must be the forerunner of a political federation."

The article says a closer union of the scattered western units of the empire is planned by means of a unification of the laws of currency, customs and tariffs and the development of sugar and other industries, especially in Jamaica, which the article says, is being demanded of native labor by Cuban sugar estate owners.

A flying base will shortly be established in Trinidad for the extension of a mail route from Canada to South America by way of the Bermudas and the Bahamas, the article says.

WHOLESALE FRAUDS IN PASSPORTS

ATHENS, Jan. 27.—(By Associated Press)—Wholesale frauds in passports carried on by Greek subjects endeavoring to get into the United States, have been discovered by W. L. Lowrie, American consul general here. More than 50 passports were submitted at the consulate today, for American visas and 25 were found to bear forged signatures and false seals of the Greek foreign office.

It is feared many Greeks already have secured admission to the United States, in similar spurious papers, as some 2000 persons seek American visas each month. Greek authorities have made several arrests and steamers bound for New York from Greek ports are being held, pending the inquiry.

"A SOLDIER OF FRANCE"

Simple Ceremonies Marked Permanent Entombment Under Arc de Triomphe Today

PARIS, Jan. 28.—Simple ceremonies marked the permanent entombment of "A Soldier of France" representing the French unidentified war dead, under the Arc de Triomphe today. A plain stone slab marks the resting spot of this unknown soldier. Detachments of all arms of the military service participated in the ceremony, while the families of thousands of unknown soldiers gathered around the Arc de Triomphe. To the rolling of drums, the sounding of bugles and bands playing the Marseillaise, the body was lowered into the tomb. Minister of War Sartorius then placed on the casket the military medal, the war cross and the insignia of the Legion of Honor.

DETAILS OF FLIGHT OF 9401 STILLS SEIZED AND

GROVER BERGDOLL 5328 ARRESTED

PHILADELPHIA, Jan. 28.—Details of the flight of Grover Cleveland Bergdoll, wealthy draft evader, became known here today, after publication of despatches from Germany describing efforts of Americans to kidnap him there.

Reports received by department of justice agents here said that Bergdoll had stolen the service bullet and other charge papers of an American Legion room in Winnipeg, and got a passport out of Canada.

Eugene Stecher, Bergdoll's chauffeur, who is with him in Germany, is under indictment here for aiding in Bergdoll's escape from army officers at his home here on May 21 last. It is alleged that Stecher, familiarly known as "Doc," made the plans for Bergdoll's flight and that he had an automobile in readiness when his employer slipped away from his guards on the pretext of answering the telephone.

With Stecher at the wheel of the motor car, the fugitives led the government agents a wild chase across the country and finally ended their Winnipeg. They abandoned their automobile in Minnesota.

MASON BRYAN HANSEN YOUNGSTOWN, O., Jan. 28.—Franklin Mason, American flyweight champion, knocked out Baby Hansen of New York in the sixth round of a scheduled 12-round bout here last night.

LOUISVILLE, Ky., Jan. 28.—A total of 9401 illicit stills were confiscated and 5328 arrests were made last year in the southern prohibition district, which comprises Virginia, North Carolina, South Carolina, Kentucky and Tennessee, according to figures made public today by S. B. Brant, supervising agent of the district.

Prosecutions resulted in fines aggregating \$288,265, and imprisonments totaling 2,775 months.

The value of property seized for sale was \$1,215,176, and property destroyed at \$1,215,176. Fines and penalties assessed aggregated \$4,054,222.

UNIVERSITY EXTENSION

Course in Industrial Organization and Management in 20 Lessons at Y.M.C.A.

Subjects of the course in Industrial Organization and Management to be given in 20 lessons under the auspices of the Massachusetts Department of University Extension at the local Y.M.C.A. will be taught by H. B. Mayhew, a Lowell man who was graduated from the Massachusetts Institute of Technology. He has had considerable experience in industrial work at 25 Brock-Lowell shops, the West-O-Lite company and the Cartridge company. He was graduated from M.I.T. in 1917 as an industrial engineer.

There are now 14 students enrolled in the course, but in order for it to continue according to the plan of the Massachusetts department of the state there must be 20 students, at least. Mr. Mayhew describes the course as a fusion of engineering, economics, sociology, psychology and accountancy.

The duties of the industrial engineer are to secure satisfactory dividends for the proprietors of a business, better wages and working conditions for the workers, and better products at lower costs. If possible, for the consumer. Another purpose of the course is to help against the enormous losses in manufacturing which must be obliterated as far as possible.

The structure of manufacturing administration will be taken under consideration during the course and completely analyzed. This analysis of business administration treats of putting together a business or starting a manufacturing plant. In this analysis there are five divisions: design, operation, equipment, control and comparison. The course is particularly valuable to those now engaged or intending to be in industrial work of any kind. Enrollment may be made with industrial secretary Hockenham at the Y.M.C.A. or directly with the extension department, State House, Boston, James A. Meyer, Director.

B. & M. DEFICIT OF \$10,000,000 (Special to The Sun)

BOSTON, Jan. 28.—Notwithstanding the fact that the Boston & Maine railroad handled last year the largest tonnage in its history, it finished the year with an operating deficit of approximately \$10,000,000, the largest ever known.

This regrettable showing is attributed almost wholly to the increased costs of fuel and materials, and to the retroactive wage award.

In 1920 the road hauled 2,703,917,000 revenue ton miles of freight, an increase of 12.5 per cent over 1919, when the figure was 2,393,258,000 ton miles.

The highest previous record ever reached by the road was 2,512,611,000 ton miles.

One of the large factors in making the tonnage record was the unprecedented amount of coal hauled. Not only did this serve to break the record, but it also sustained the volume of traffic when general freight began to show a falling off.

D. P. LARRY, Real Estate, Insurance, 414 Hildreth Building

To Protect American Manufacturers

WASHINGTON, Jan. 28.—Practically doubled import rates and clarification of tariff statutes were asked of the house ways and means committee today by the manufacturers of floor covering. Witness said present laws were susceptible of varied interpretations and also argued for legislation to protect trade names of American manufacturers. Representatives of grass and fibre rug manufacturers said the Japanese as well as some of the European nations, had made inroads on their domestic market.

To Amend Clayton Anti-Trust Act

WASHINGTON, Jan. 28.—The Freylinghuysen bill amending the Clayton anti-trust act so as to remove restrictions on railroad transactions with companies having interlocking directorates, was favorably reported by the senate interstate commerce committee today, modified to provide for supervision of such transactions by the interstate commerce commission.

Japanese Population In Hawaii

WASHINGTON, Jan. 28.—The Japanese population of Hawaii in 1920, was 109,274 out of the total population of 255,912, and represented an increase for that race of about 33 per cent since 1910, the census bureau announced today. The only race which showed a greater increase in Hawaii than the Japanese was the Filipino with an increase from 2361 in 1910, to 21,031 in 1920. The native Hawaiian people decreased in the last decade from 26,011 to 23,723.

Leaped to Death Above Niagara Falls

NIAGARA FALLS, N. Y., Jan. 28.—An unidentified man jumped into the river above the falls early today, and was swept to death over the American brink. The man talked to Reservation Officer S. W. Rhodes just a few minutes before he made the leap. He said he was from Cleveland.

To Cut Wages in Ship Yards

ELIZABETH, N. J., Jan. 28.—A proposal to reduce production costs 25 per cent by lowering wages has been submitted to the employees of the four shipyards of the Bethlehem Shipbuilding Corporation. This was learned today when Eric Ewertz, general superintendent of the local plant, began holding conferences with representatives of the employees. The ship plants of the corporation to be affected by the wage reductions are located here and at Quincy, Mass., Sparrows Point, Md., and Wilmington, Del.

ASKS BRINES CASE BE TAKEN FROM JURY

PHILADELPHIA, Jan. 28.—A motion that the case be taken from the jury on the ground that insufficient evidence had been presented by the state to sustain the indictment against William P. Brines, University of Pennsylvania sophomore accused of slaying Elmer C. Drewes, a Dartmouth college senior, was made at last night's session of Brines' trial by his counsel, William A. Gray.

The motion came as a surprise just after Assistant District Attorney James Gay Gordon, Jr., had announced that the state has completed its case. Mr. Gray declared his readiness to argue his motion last night, but at the suggestion of the court postponed it until morning. Counsel for the defense made seven other motions to have testimony stricken from the record but was overruled in each instance. He announced that if his motion to have the case taken from the jury is denied, he would call some witnesses for the defense today.

William P. Brines, the University of Pennsylvania sophomore on trial charged with having killed Elmer C. Drewes, a Dartmouth senior, was the author of the mysterious letter signed "Samuel Magee" which it is contended, lured Drewes to his death, in the opinion of a handwriting expert who testified yesterday.

Comparing specimens of the defendant's handwriting on three university examination papers and two applications for automobile licenses, the expert, Elbridge W. Stein, said it was the same as that in the "Magee" letter, which was sent from Reading, Pa., to Drewes at Dartmouth college, Hanover, N. H., and which contained an offer to sell him an automobile. Another handwriting expert, T. H. McCool, concurred in the opinion.

The bullet which killed Drewes was "almost certainly" fired from the pistol found in a deserted automobile alleged to belong to Brines, Dr. William C. Wadsworth, coroner's physician, testified. Dr. Wadsworth had based his opinion on a tiny streak of rust found in the barrel of the pistol, which would account for indentations in the bullet that drilled a slightly downward course through Drewes' forehead.

The stain found on the door of the automobile was declared to have been human blood by Dr. John Albert Kolmer, professor of pathology and biology at the University of Pennsylvania.

Arguments On Motion
PHILADELPHIA, Jan. 28.—The entire morning session of the trial of William P. Brines, charged with murder of Elmer C. Drewes, Dartmouth senior, was taken up with argument on a motion of the defense to take the case from the jury and discharge the defendant.

KILLED BY EXPLOSION

200 Thrown Out of Work When Boiler Blew Up
MONTREAL, Jan. 28.—Two hundred persons were temporarily thrown out of work today when a boiler exploded in the heating plant of the National Drug Co., killing Alfred Robich, a porter, and injuring two other persons.

NEGRO HANGED

Protests Innocence, Saying Father Knew Murderer
BALTIMORE, Jan. 28.—George H. Terry, negro, assailant of Mrs. Sadie Sibley, a white woman of Mount Winans, a suburb, was hanged at this city jail today. On the scaffold he declared he was innocent, saying his father knew the man for whose crime he was convicted.

Peasant girls in France, Belgium and Italy got their hair at regular periods to doctors.

Feeling Pinch of Poverty

Continued
accumulated savings of \$50. "But I have had to spend all that," he said. "I've been out of a job for four months now."

Binaski also told of his landlord threatening to eject him and forcing him to move to another house. "I told him I would pay him when I got work," he said, "but he said he wouldn't wait, and would put me and my wife and children out unless I paid at once. I borrowed five dollars from a friend Monday and we have been living on that. But I think I can get some more to last until I go back to the mill."

Binaski said that when working he received \$29.56 a week. He told a Sun reporter that he was willing to accept any sort of employment, and that he did not want his children sent away. The children were left in his care by Judge Enright, who continued the case to give Binaski an opportunity of taking care of them.

In the cases of the eight children given to the state's care, it was testified that efforts to secure proper care for them had been going on for a year. The children are a boy 11, a girl 12, two boys 11 and 8, two girls 5 and 3, and two boys 3 and 1 year of age.

The other three children were accompanied by their mother only, she testifying that the father had deserted them. She has had six children in all, three having died. These children were placed in the care of Agent Binaski of the Lowell Humane society, while continuance was given for final disposition of the case.

MEMBER OF IRISH PARLIAMENT QUILTS
LONDON, Jan. 28.—Roger N. Sweetman, a member of the Irish republican parliament, has resigned, giving as his reason a radical disagreement with the majority of his fellow members on vital matters of policy.

ON WAY TO HARDY GRAS
PITTSBURGH, Jan. 28.—Carrying passengers from the eastern section of the country to the Mardi Gras celebration at New Orleans, the steamer Queen City is en route to the south today. The boat, with many of its berths occupied, was freed from the Pittsburgh harbor late yesterday. Passengers from cities and towns along the Ohio and Mississippi rivers will be picked up en route. The Queen City is due to arrive at New Orleans Feb. 5.

Cement is being used instead of lead to make joints in cast-iron water pipes.

Saw Pictures in Newspaper

Continued
photo of these three men? Or shall I call and see if they are the men.

JOSEPH PETERS,
115 Chandler Street, Boston.

Naft Hammer Clue

A vital feature of the story told in Peters' letter is his mention that one of the men who held him up was armed with a naft hammer. When the police searched the room of the Thelma brothers, they found, among other incriminating articles, a hammer. This may prove to be the connecting link between the Boston holdup, and the activities of the local gunmen. It is pointed out that the carrying of a hammer as a weapon is not usual in the case of robberies, and consequently Peters' identification of the trio, together with his statement of their possession of the hammer, seem to dovetail to such extent that the Lowell gunmen may soon have this evidence added to their list of alleged malfeasances.

Attorney Cornelius J. O'Neill, junior counsel for the defendants, was at Cambridge yesterday, and conferred with the accused men. No other important activities on the part of the defense have yet been made public. Attorney Daniel J. Donahue, who will conduct the defense of both Foster and the two Thelmas, stated this morning that he expected the case to come to trial within a short time.

The scheduled preliminary police court hearing which was set for February 4, will be superseded by the meeting of the grand jury, as a result of District Attorney Nathan A. Tufts' action in convening a special session of this body on February 3. This development deprives the defense of an opportunity to procure an idea of the government's line of testimony. It is considered beyond question that the grand jury will arrive at a speedy indictment. The next step in the legal machinery will be the pleas made by the defendants. They will, it is thought, undoubtedly reiterate the not guilty pleas which they gave in the police court on the morning which followed the shooting. The date for the trial will then be set.

Will Have Speedy Trial
The district attorney's office appar-

ently shares the desire expressed by Attorney Donahue for a trial in the near future. The trial may possibly be held in this city, as it is understood that the majority of the government witnesses are Lowell residents, and less expense and trouble will be involved if the court is held here. However, Cambridge may be selected as the scene of the battle for life by the three gunmen. In the event that the latter city is selected, the East Cambridge court house will unquestionably be taxed to capacity by throngs who will be eager to follow the testimony.

Reports are still current in police circles to the effect that a fourth man may be implicated in the killing of Talien. The opinions of some, however, are to the effect that they discarded the tale of the accused men, which charge that this party, now thought to be at large, directed and played the leading part in the crime.

BAY STATE MILLS TO RESUME OPERATIONS

The Bay State Cotton Corp., in Marginal street and Broadway, employing between 500 and 600 persons, which shut down a month ago, will resume operations next Monday morning. Whether or not the plant will go on a full-time schedule is not known at present, but he that as it may, it was stated at the office of the company this morning that next Monday morning there will be work for all the employees who report.

The Beaver Brook mills in Collinsville, a branch of the American Woolen Co., which has been shut down for several months, has resumed operations on a small scale. A number of the employees of the plant are now busy manufacturing samples, and it is believed by many that operations at the mills will be resumed within a short time. One of the officials of the company stated today he did not know what the plans of the men higher up in the company are.

It is stated that the plant of the royal animal and must be given all George C. Moore mill in North Chelms-

ford, which has been shut down for the past four months, will resume operations within ten days. This information is from one of the employees of the mill, who stated that yesterday his overseer sent word to him that within a week or so his services will be needed at the mill as arrangements are now being made to reopen the plant as quickly as possible. Inasmuch as Mr. Moore was out of town all day, the statement could not be verified.

B. & M. SHOP "JAZZERS" AT LINCOLN HALL
The "Jazzers" of the B. & M. shops at North Chelmsford were out in large numbers last night in Lincoln hall. A few young men of the shops banded together and staged a very enjoyable dancing party there and succeeded in securing patronage from many of their fellow shop employees and others. There were in all about 600 present. The waiters were there strong, too, and the winners of the prize waltz held before general dancing started were Charles Mannigan and Miss Connors. The judges were Thomas Cunha, Geo. Wayne and Mr. Henry.

The officers for the party were: Gus Crehan, general manager; Joseph O'Regan, assistant general manager; Bernard Gilho, floor director; George White, assistant floor director; Jos. O'Regan, treasurer; Wilfred Vago, secretary.

BURSH AND GRASS FIRES
The alarm from box 417 at 2:49 o'clock this morning was for a grass fire in Chelmsford street. At 12:40 o'clock this afternoon a telephone alarm was sent in for a brush fire on the Wiggin land in Wigginville and shortly afterwards members of House 10 were called to extinguish a grass fire in Varnum ave. At 3:15 o'clock this morning the automatic at the waste mill in the old Digelow plant in Market street went off accidentally and the firemen were called to right things.

BURNS ANNIVERSARY

Concert and Dance By Clan
Grant—Mayor Thompson
in Tartan

Mayor Perry D. Thompson, arrayed in a tartan, and delivering a brief address in which honor and more serious themes were cleverly mingled, proved one of the features of the Burns anniversary concert and dance held by Clan Grant, 111, order of Scottish Clans, and attended by hundreds of local Scotsmen and women at the Regent hall last evening. "I am indeed proud of the Scotch blood which flows in my veins," declared the mayor, who called upon all of the Clans to be in the town in those times of unrest. "The Scots," he said, "are known as a hardy and steadfast race, and the need today is for such men and women. You, then, must live up to the traditions of your blood. You must give your best to the community, the commonwealth, the country, yes, to the world. For you have the sturdiness of heart which our country needs today. If we carry such a spirit forth with us in our daily life, our country will be always as free and happy, as it always has been, and we need not fear for the future."

Scottish ballads, many of them by the great singer whose birth was being celebrated, were sung by Mrs. Nettie Roberts and Miss Ella B. Thompson, both of Lowell, together with J. Cameron MacLeod of Detroit, and Theodore Martin of Hamilton, Ontario. Enthusiastic applause greeted them, when Miss Irene Crockett and Miss Flora MacLean appeared and danced the Highland fling and the sword dance, to the tune of a harp. These young ladies are models of ability and grace, besides being charming to look at and as entertaining, they made a picture that will not soon be forgotten by those who saw them last night. Later in the program they danced a sailor's hornpipe and an Irish jig. The soft shoe dancing which the latter number involved was executed in a manner which brought a veritable roar above that of many professional performers.

Measures, Martin and MacLean wore the Scotch full dress evening clothes. For the benefit of the unfilled it should be stated that this includes the dress shirt and white tie, plus a tuxedo coat adorned at sleeves and edges with pearl buttons. In lieu of trousers kilted of the clan plaid are worn. Mrs. Roberts also appeared in the costume of a Scottish fisherwoman, during one of the song groups. Mayor Thompson was accompanied by Mrs. Thompson, and they were escorted to the front seats by ushers wearing the tartan.

The program was as follows:

Quartet, "There Was a Lad," Miss Thompson, Mrs. Roberts, Mr. Martin, Mr. MacLean.
Pipe selection, Harry Thompson.

Song:
a. "Scots, Wha Hae!"
b. "Hurrah for the Highlands!"
J. Cameron MacLean.

Song:
a. "Flow Gently, Sweet Afton!"
b. "Whistle and I'll Come to Ye, My Love!"
Miss Ella B. Thompson.

Dances:
a. Highland Fling
b. Sword Dance
Misses MacLean and Crockett
Song:
a. "Once Again in Dear Old Scotland!"
b. Selected
Theodore Martin
Song:
a. "Wi a Hundred Pipers"
b. "John Anderson, My Jo!"
Mrs. Nettie Roberts
Address:
Mayor Perry D. Thompson
PART II
Quartet, "Anno Laurie"

Mrs. Nettie Roberts
"And Lang Syne"
a. Entire company and audience
Accompanied, Wilfred Kershaw

The committee on arrangements was: Chairman, Frank E. MacLean; secretary, James N. Miller; treasurer, William G. Adams; chief Samuel W. Johnston; Peter G. Galt; Thomas Kirk; Norval Robertson; Alexander H. L. Ross. The reception committee was composed of: Chief Samuel W. Johnston and all past chiefs of Clan Grant. The sisters were: Norval Robertson, chief; Douglas Thompson, Alexander H. L. Ross and William Galt. The floor director was Alexander H. L. Ross and the assistant floor director was Archie MacIntyre. The aunts were John Adams, James L. Adams, Allen Angus, Robert Murray, Thomas Ross, Jr., and William Ritchie.

CHILMARK NEWS

Time of Filling Nomination Papers For Annual Election Expired Last Evening—List of Candidates

At the expiration of the time limit for the filing of nomination papers for the coming annual election of officers for the town of Chilmark last evening the following candidates had filed the necessary papers to have their names placed on the ballot: Moderator, Walter Perkins; town clerk, Raymond C. Hazeltine; Justin L. Moore, selectman and overseer of the poor, Edward T. Brink, Samuel S. Kershaw, George Rigby, Theodore C. Robarge, school committee, Rev. C. H. Ellis, (3 years), M. Edward, (2 years), (2 years), James H. Dunham, William J. Quigley, constable, William Foster, Charles L. Deane, Fred S. Vinal, board of health, Abbott L. Emery, (3 years), town treasurer and collector of taxes, Ervin W. Sweetser; trustees of Adams library, Albert H. Davis, A. Head, Paul, tree warden, Charles R. Forsythe, sinking fund commission, William H. Smith, country engineer, Charles F. Seaborn, (3 years), Ralph L. Adams, (1 year), park commissioner, Fred L. Fletcher, 3 years. But one candidate can be elected to the above offices except of trustees of the Adams library, where two will be chosen. The election will take place February 1.

CHALLENGE ACCEPTED

In regard to the challenge of Mr. Copper and Mr. Maguire, Mr. Hinde and Mr. Bray, of the Appleton, following league will not then at their pleasure. "Money talks," say Hinde and Bray.

BE GOOD TO THE BIRDS

Uncle Sam and the American Forestry association ask all the boys and girls in the country to build bird-houses—right away—so they'll be ready for spring newcomers. Children down in Washington are doing it with vim. This picture shows a birdhouse that won a blue ribbon in Washington school contests being mounted in a tree by its builders. Inset is Peggy Baker, daughter of War Secretary Baker, with the birdhouse.

Water Supply Development

Continued

ent under consideration. This involves the creation of great filtering plants at several advantageous places scattered through the commonwealth, and it was admitted today that the commission believes this plan not to be feasible.

"The matter has been under consideration for nearly two years, but no aviation information as to the progress made has been obtainable until today, when Eugene H. Kelley, commissioner of public health, and X. H. Goodenough, chief engineer for the department, went before the legislative committee on water supply and asked that the

time for completing the study be extended until next January. After they had explained the exigencies of the matter, the committee voted to report favorably on their request.

Situation Very Serious

Dr. Kelley stated that the water supply situation is very serious in many localities in Massachusetts.

"There has been an almost complete suspension of water supply development," he said, "and were it not for the fact that the Almighty has seen fit to give us eight successive years with rainfall above normal, there are many communities in Massachusetts which would be finding it impossible to supply water in sufficient quantity to their

inhabitants. "It is only a question of time, and in all probability a very short time, when we shall have in a serious predicament. Ordinarily, we average one really dry season in fifteen, but with the remarkable excess of rainfall in the past few years, it would not be at all surprising if our dry season were to come earlier than it ordinarily does."

"In addition to the growth in population, which is very steady and continuous, there has been recently an increase in the per capita consumption of water."

"The metropolitan district has nearly reached the limit of development in its present sources of supply. The Wachusett basin, from which the metropolitan district is supplied, is capable of producing perhaps 6,000,000 or 7,000,000 additional gallons, but the city of Worcester is clamoring for more of this source of supply. The Wachusett basin, from which the metropolitan district is supplied, is capable of producing perhaps 6,000,000 or 7,000,000 additional gallons, but the city of Worcester is clamoring for more of this source of supply."

"By building a great dam at this point of their confluence, we can create an immense reservoir which will be able to store millions and millions of gallons of water, and the water can be transferred by gravity to the Wachusett basin, where it will affect a sufficient and steady supply for the cities mentioned."

"No very great engineering difficulties are involved. It is to be a gravity dam, where the dam is proposed to be built, and up to the present it is not necessary for a part of the dam to be transferred. It is for the purpose of giving adequate study to these engineering problems, and of determining the approximate cost of the development that we ask permission to devote another year to the report."

Red Neck Problem
"Borings have been made at a point where the dam is proposed to be built, and up to the present it is not necessary for a part of the dam to be transferred. It is for the purpose of giving adequate study to these engineering problems, and of determining the approximate cost of the development that we ask permission to devote another year to the report."

WILL MRS. HARDING DICTATE HAT STYLES?

Over in England, Queen Mary sets the fashion pace. When she wears a new hat that settles it—the hat is correct. What the American designers are wondering is: Will Mrs. Harding's hats set the pace for American women? Will her personal taste influence American fashions? Queen Mary is shown in the center wearing her crown. The other pictures show her taste in hats.

COMMUNITY SERVICE ADULT PLAY SCHOOL

The fifth meeting of the Lowell Community Service Play school for "grown ups" will be held tonight in the Runkel building.

Eighty-five students are enrolled, representing various organizations and clubs; such as recreation, leaders for church entertainments, industrial welfare workers, community club members, public school students, Normal school students, foreign group leaders, continuation school teachers, and private individuals interested in recreation for the sake of taking it back to their communities. One play school student deserving of special mention is a mother from a suburban district who has come every night, bringing her little daughter with her, as she did not wish to leave her alone and wanted so much to learn the games because of the 50 or more children in her community who need a play friend and leader. These children will have the fun of playing all the games.

stunts, and dances which are being taught at the school.

The school is unique in the fact that it is all participation, the joy of really playing the game—no notes or long lectures. At the end of the course, printed copies of all the activities will be given to each student. A change has been made for tonight when the class will be conducted at the recreation hall of Community Service in the Runkel building. This evening's program will be an especially jolly and rousing one, as Miss French, who has conducted play schools in many cities throughout the country will take charge of the first half of the evening bringing entirely new recreation activities and Mrs. Julian B. Keyes, prominent as a director of social dancing will have the second half of the program ending the evening with retellings of figures and social dancing.

A complete automatic telephone system is planned for communication between the dams and hydraulic works under construction along the Ohio river.

SUFFERED WITH ITCHY ECZEMA

In Pimples For Almost 7 Years. Cuticura Heals.

"I suffered terribly with eczema for almost seven years. It broke out in little pimples. My head itched and burned so that I had to have some of my hair cut off, and my ears were a sight. I could not put my hands in water or do any work."

"Being Cuticura Soap and Ointment advertised I sent for a free sample. I bought more, and after I had used five cakes of Cuticura Soap and five boxes of Cuticura Ointment I was completely healed, in five weeks." (Signed) Miss Lois G. Reynolds, Dennyville, Maine.

Rely on Cuticura Soap, Ointment and Talcum to care for your skin.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. B, Lowell, Mass." Sold everywhere. Soap & Ointment 25¢ each. Talcum 10¢. Cuticura Soap shaves without ras.

COOLIDGE ADDRESSES TARIFF CONFERENCE

ATLANTA, Ga., Jan. 28.—Calvin Coolidge, vice president-elect, addressing the southern tariff conference last night, said that in a determination of the economic policy of the country "the sole object to be sought is the public welfare." He defended the protective tariff but said there would need to be "a careful survey for the field in order to determine what application of former policy can be made to existing conditions in order best to provide for the public welfare."

"Geographical divisions and sectional lines have been swept away," said Mr. Coolidge. "The just pride of the north and the south, the east and the west is everywhere submerged in the overwhelming sentiment of a yet greater pride that we are all Americans. This outstanding result of the recent, national election was more than partisan, it was the unalterable determination of our country to be and remain in all things thoroughly American."

"We have not been given a mandate of omnipotence. We have not been entrusted with world sponsorship. But we have an inheritance of obligation, of responsibility, or duty to the United States. This conception of our paramount responsibility is in no sense a denial of international relationship, for international relationship implies primarily a recognition of national duty and national duty. We subscribe to the creed of world brotherhood, but we recognize that we can serve the world best by serving America first."

"Steady progress is being made toward industrial revival and away from the old struggle of international competition will again confront us. In fact, it has already begun. The problem with which we are confronted and to the solution of which the southern tariff congress can materially contribute, is to prevent industrial isolation on the one hand and industrial submergence on the other."

"Your forefathers acknowledged the right of America to protect itself against the dictation and the domination of any foreign power and they fought with our forefathers for the independence of the United States. The independence which they sought was not merely independence of foreign kings and foreign cabinets. They sought also independence of commercial thralldom."

"The economic life of the country is made up of private business enterprises and the public consists of aggregation of private individuals. So it is no criticism of protection that benefits private business and private individuals. That must be the result as that is the object sought. But protection should be given in such manner that broadly speaking the benefit received by any private interest should not be disproportionate to the increased public service which that private interest renders by reason of the benefits derived from such protection."

"We have a great diversity of interests which are all entitled to consideration. This will require a very careful adjustment. In making that adjustment all must remember that each must support the other. In the long run all are interdependent."

"The real concern of the nation is not merely in the erecting of great factories. It is in the building of manhood and womanhood. The interest of the government in industrial policies is primarily in national revenue, national defense and the welfare of the people. The greatest revenue comes from the greatest production, not the greatest imports. National defense depends upon the skill of our people and the diversity of our industries. The welfare of the people depends upon opportunities for employment and not ability to pay good wages."

"These are the objects toward which the nation should direct its industrial policy. These are the objects toward the consummation of which the whole nation invites the welcome and effective co-operation of the south."

Australia has set aside a tract of its land as a reservation for the aborigines of that country.

Has He Found a Cure for Asthma?

Simple Prescription Gives Instant Relief. Makes Breathing Easy.

In New England, where Bronchial Asthma, Hayfever and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidase, a physician's prescription. Oxidase is a harmless but powerful combination of curative essential oils concentrated and compressed into a solid tablet. One of these tablets dissolved before going to bed seems to have the effect of relaxing the muscular constriction of the bronchial tubes opening up the air passages and inducing a refreshing sleep. This enables the patient to breathe easily and naturally while lying down and to get a comfortable night's sleep.

So much interest has been shown that local druggists, including Lowell druggists, Greenwald and Green's Drug Store, have secured a small supply and state that they are anxious to refund the money paid for the next package if it does not give this new treatment a fair trial. Oxidase is pleasant to take, causes no harmful habit-forming effects and is not expensive. This makes their test an easy matter. Ask.

"ABSOLUTELY PAINLESS DENTISTRY At the Right Price"

We are doing more to keep the price of high grade modern dentistry within the reach of the people than any other dentist in New England.

I SIMPLY WILL NOT CHARGE EXORBITANT FEES

My Dentistry is the best it is possible to do. None of that "good enough" kind of work in my place. You come to me, feeling in your heart that I am the best dentist in this city—you pay my price and you are entitled to—and will receive perfect, harmless dentistry. This I guarantee you will receive. You cannot be too particular to suit me.

PAINLESS EXTRACTION FREE

If you want the best—a set of teeth that defies detection in the mouth—The Natural Gum is the set you must have.

Full Set of Teeth . . . \$8 Up

Gold Crowns . . . \$5.00 Up

Bridge Work . . . \$5.00

VIOLETS—For Modesty

The birthday flower for February and beloved by all at all times.

The fashion of today is to wear flowers at the theatre, dinner party or dance. A corsage bouquet of violets adds life and sparkle to one's personality.

We shall have a special sale of violets beginning tomorrow and continuing until after the Elks Charity Ball, as the violet is the Elks fraternity flower.

You are not limited to violets, we have a variety of flowers and can make up any combination to suit your require-

other cities and towns. These women immediately became partners.

Several of these women now own and drive their own automobiles and have their own bank accounts, and their business is increasing each month.

We now offer this opportunity to every woman in Lowell. You may call at the Lyon Carpet Company and we will give you instructions on how the Lucky Yarn is put up and shipped and how you can immediately become one of our wholesalers.

Heads Gaily to 49 Charges of Burglary
PITTSBURGH, Jan. 28.—Joseph Walters, the "one inch jimmy burglar" pleaded guilty today to 49 charges of burglary and was sentenced to serve not less than 25 years, nor more than 50 years in the penitentiary. Doors and windows in a number of places in the east end residential district were furled with a jimmy little more than an inch long.

Postal and Telegraph Employees Strike
ROME, Jan. 27.—All the postal and telegraph employes have gone on strike, and services in these departments have ceased as a result of a collision between employes and the Fascisti which necessitated police intervention.

ARMY APPROPRIATION BILL REPORTED
WASHINGTON, Jan. 28.—Framed to provide for a force of 150,000 regulars, the army appropriation bill reported to the house today, carried a total of \$328,861,123, a reduction of \$83,027,242

MOVE FOR EMBASSY IN RUSSIA KILLED
WASHINGTON, Jan. 25.—The house voted down last night a proposal to pave the way for appointment of an ambassador to Russia, and struck out of the diplomatic appropriation bill a provision for raising the American legation at Peking to an embassy. Then finding its feet entangled in

from current appropriations. The war department had asked for \$92,511,070. work with an agreement to continue consideration of the bill today.

The Philippines, numbering about 6500 men, 2500 Filipinos and 4000 commissioned officers are not included in the 150,000 total.

Reduction in the army, the committee report said, was proposed with a view to early withdrawing of Americans in Germany. Chairman Anthony, of the military subcommittee of the appropriations committee, told the house that the present plan of the war department to maintain nine divisions in camps erected during the war, was unnecessary waste and expense. Chairman Anthony said President Harding had approved the plan.

"While the committee has greatly reduced those appropriations which support some of the more expensive branches of the national guard," the report said, "it believes that if the war department will follow a policy of permanent reduction of the national guard, it will be the most economical and

After a brief debate the house rejected an amendment to the bill for \$1,000,000, Illinois to set aside \$12,500 as the salary of an ambassador so that Mr. Harding as president might be prepared without further action to establish diplomatic conditions with Russia in the event conditions should develop as to make such action desirable.

Mr. Mason declared that his own information from unprejudiced sources indicated that the Bolsheviks had done more for the people of Russia than ever was done before.

Attack on the provisions for a military mission of the Serbs, Croats and Slovenes was made on the ground that there was no authority in law for such representation. A policy of order was made against the provision and also against a proposal for appointment of ministers to Finland and Siberia. The latter post was held by an American, but had been represented by an ambassador.

useful lines, which are infantry organizations, and will minimize the organization of these branches of the

guard which require the issue and maintenance of animals and mowers, and special technical equipment, that material economies can be effected which not only will increase the efficiency of the guard but will aid in its growth and expansion."

For West Point, any appropriation of \$501,489 was recommended, an increase of \$129,277. The amount requested was \$6,164,432.
